MIDSTATE ELECTRIC
COOPERATIVE, INC.
*Owned By Those We Serve*

November 19, 2026

Mr. Charles Lockwood, Utility Analyst
Oregon Public Utility Commission
P O Box 1088
Salem, OR 97308-1088

Dear Mr. Lockwood:

Pursuant to OAR 860-29-080(2), I am filing avoided cost information on behalf of Midstate Electric Cooperative, Inc.

As a publicly owned entity, Midstate Electric buys all its wholesale power from BPA at the priority firm (PF) rate in accordance with Section 5(b)(1) of the Northwest Power Act. Midstate Electric is a full requirements customer of BPA. Under our contract, BPA provides wholesale power at the PF rate sufficient to meeting all our current load and future load growth. Therefore, our avoided cost will continue to be the PF rate as established by BPA in its regular rate proceedings.

Currently, the average cost for FY 2026 is $52.40 per MWh. BPA is in the beginning stages of a rate proceedings that will set rates effective FY 2028. As a result, the final rates for this period are unknown at this point.

Our existing power supply contracts with BPA run through 2028. We will update this contract and rate information in future filings.

If you have any questions regarding this information, please contact me at your convenience at 541-536-7282 or janderson@mse.coop.

Sincerely,

Jim Anderson
General Manager
