RE: RO 16, PGE Energy Burden Metric Reporting for Q3 2026

Dear Filing Center:

Portland General Electric hereby submits the Energy Burden Metric Report (EBMR) for July through September 2026. This report includes all data points, including zip-code data, per OAR 860-021-0408.

The Q3 data show that PGE's customer-assistance framework is reaching customers at significant scale and providing meaningful bill relief. Approximately 109,000 customers received bill discounts each month, with more than $16 million in discounts provided during the quarter. The number of customers in arrears declined, including an approximately 9% reduction in bill-discount participants who were 91 days or more past due. More than 35,000 customers were also participating in payment arrangements by September. While nonpayment disconnections increased during the quarter and remain an important area to monitor, the large majority were followed by same- or next-day reconnection, suggesting that extended loss of service is substantially less common than the headline disconnection number alone might suggest.

Please direct questions to Jake Wise at jake.wise@pgn.com and all formal correspondence and requests to pge.opuc.filings@pgn.com.

Sincerely,

\s\ *Jason Salmi Klotz*
