Section 63.71 Application of	)	
	)	
Lumen Technologies, Inc. on behalf of Certain of its Subsidiaries	)	WC Docket No. 26-____
	)	
For Authority Pursuant to Section 214 of the Communications Act of 1934, As Amended, to Grandfather Telecommunications Services	)	

SECTION 63.71 APPLICATION

Lumen Technologies, Inc. (Lumen) (FRN: 0018-6268-53) hereby applies for authority pursuant to Section 63.71 of the Federal Communications Commission's (Commission) rules, 47 C.F.R. § 63.71, and Section 214 of the Communications Act of 1934, as amended, 47 U.S.C. § 214, to grandfather Interstate Business Data Services/Special Access DS3 services and certain Interstate SONET services (collectively, the "Affected Services") provided by certain Lumen Incumbent Local Exchange Carrier (ILEC) companies (Lumen ILEC Affiliates)[1] in 17 states.

APPLICATION

Lumen submits the following information in support of its application:

1. Name and address of carrier

Qwest Corporation and El Paso County Telephone
931 14th Street
Denver, CO 80202

CenturyLink, CenturyTel, Telephone USA, and United Telephone Company
100 CenturyLink Drive
Monroe, LA 71203

[1] This application is filed on behalf of the Lumen ILEC Affiliates listed in the Appendix.

2. Date of planned service discontinuance, reduction or impairment

As of February 1, 2027, or as soon thereafter as the necessary regulatory approvals can be obtained, the Lumen ILEC Affiliates will no longer offer the Affected Services to new or existing customers for new orders. Moreover, existing Affected Services will be grandfathered as follows:

- Move, Add or Change Orders (MACs) will no longer be accepted.
- Only disconnects will be accepted.
- Customers receiving Affected Services under existing contracts will continue to be supported as required until the expiration of the applicable contract term. Contracts covering Affected Services will not be renewed. Under contracts including automatic renewal for a term, the Affected Services will not automatically renew.
- Subject to the provisions of customer contracts, the Affected Services will be converted to month-to-month when the current term expires, at the then-current Interstate Service Guide rates until disconnected or discontinued.

3. Points of geographic areas of service affected

Lumen seeks authority to grandfather the Affected Services in 17 states: Arizona; Colorado; Florida; Idaho; Iowa; Minnesota; Montana; Nebraska; Nevada; New Mexico; North Dakota; Oregon; South Dakota; Utah; Washington; Wisconsin; and Wyoming.

4. Brief description of the types of services affected.[2]

The Affected Services are the following point-to-point, dedicated, non-switched electrical or optical data transmission services:[3]

- Special Access DS-3 Service, which provides a point-to-point channel for the transmission of isochronous serial digital data at rates of 44.736 Mbps. This service is also known as Interstate Private Line.

- SONET Optical Carrier Network (OCN) Services, including OC-1, OC-3, OC-12, OC-24, OC-48, and OC-192, which are capable of transporting aggregated circuit-switched and packet-based traffic. Such services are delivered over point-to-point or ring-based SONET network configurations and use time-division multiplexing (TDM) to support multiple lower-capacity digital channels.

This Application pertains to the Affected Services whether they are sold individually or as part of a bundle, package, solution, or related service arrangement.

5. Brief description of the dates and methods of notice to all affected customers

Lumen notified its retail customers of the planned grandfathering of the Affected Services in letters sent via U.S. Mail on November 3, 2026. Those customers were notified that the proposed grandfathering will take effect on February 1, 2027, or as soon after that date as authorized by regulatory authorities. An example of the customer notification letter Lumen used is attached hereto. *See* Attachment A.

---

[2] The Commission recently eliminated the requirement to file an application with the Commission to grandfather any legacy voice service or data service operating at speeds below 25/3 Mbps. *Reducing Barriers to Network Improvements and Service Changes; Accelerating Network Modernization,* Report and Order, 41 FCC Rcd 2906, 2938-40, ¶¶ 60-66 (2026) (*Network Modernization Report and Order*); *see also Accelerating Wireline Broadband Deployment by Removing Barriers to Infrastructure Investment*, Order, 40 FCC Rcd 2019 (WCB 2025) (waiving the requirement prior to Commission eliminating it). Although the notice also includes some services that fall within the scope of those for which a grandfathering application no longer is required, because they are exempt from Section 63.71 filing requirements, this Application only requests authority to grandfather the Affected Services specified herein.

[3] Depending on the location, the Affected Services may be sold under different names.

6. Public Convenience and Necessity

Neither the present nor future public convenience and necessity will be adversely affected by the grandfathering of the Affected Services. The Affected Services currently received by existing customers will not be impacted, and existing customers have been given significant notice of these changes in the event they seek to make changes prior to effectiveness of the requested grandfathering. Moreover, potential customers of these services can seek alternative service arrangements that offer comparable capabilities, such as Lumen's Ethernet services and similar services offered by numerous other providers.

The Commission assessed long ago that TDM-based special access offerings like DS3s were becoming "obsolete" in the face of significant advancement in competing services and changes in customer demand.[4] Nearly a decade later, consistent with this assessment, demand for these services has declined substantially and it is not economically efficient for Lumen to continue to provide the services.[5] Further, the Commission previously has authorized grandfathering of the same types of services for which this Application seeks approval.[6]

---

[4] *Business Data Services in an Internet Protocol Environment et al.*, Report and Order, 32 FCC Rcd 3459, 3461, ¶ 3 (2017).

[5] *Network Modernization Report and Order*, 41 FCC Rcd at 2907, ¶ 2 ("the expansion of . . . modern networks, and the benefits they afford, have been hindered by the need for carriers to divert important resources to the maintenance of aging and deteriorating legacy networks that deliver outdated services to an ever-decreasing number of subscribers").

[6] *See, e.g., Section 214 Discontinuance Authorizations Granted After Period of Limited Government Operations*, Public Notice, 40 FCC Rcd 9121 (WCB 2025) (announcing grant of, *inter alia*, AT&T applications to grandfather special access DS3 and Optical Carrier Network Point to Point services).

7. Certification Pursuant to Section 63.71(c)(8) that the Information Submitted in this Application is True and Accurate.

See the attached certification of Guy C. Gunther, Vice President, Mass Markets Sales, Care, & Transformation.[7]

CONCLUSION

The public convenience and necessity will not be adversely affected by grandfathering of the Affected Services, as customers have been given significant notice of the planned action. Accordingly, Lumen requests streamlined processing and automatic grant of this Application in accordance with Section 63.71(f)(1) of the Commission's rules.

Respectfully submitted,

LUMEN

[redacted]

Important Notice Regarding Your ILEC Interstate SONET and Business Data Services/Special Access Services Effective on or after February 1, 2027

Dear [redacted],

Please be advised that the undersigned subsidiaries of Lumen Technologies, Inc. (collectively, "the Company")[1] plan to stop offering ("grandfather") certain Incumbent Local Exchange Carrier ("ILEC") Interstate SONET and Business Data Services/Special Access services (collectively, the "Affected Services") effective **February 1, 2027,** or as soon after that date as authorized by regulatory authorities.

The Affected Services—whether sold individually or as part of a bundle, package, solution, feature, component, or other service arrangement—include, but are not limited to:

- Special Access DS-1 Service, which provides a point-to-point channel for the transmission of isochronous serial digital data at rates of 1.544 Mbps. This service is also known as Interstate Private Line.

- Special Access DS-3 Service, which provides a point-to-point channel for the transmission of isochronous serial digital data at rates of 44.736 Mbps. This service is also known as Interstate Private Line.

- SONET Optical Carrier Network ("OCN") Services, including OC-1, OC-3, OC-12, OC-24, OC-48, and OC-192, which are capable of transporting aggregated circuit-switched and packet-based traffic. Such services are delivered over point-to-point or ring-based SONET network configurations and use time-division multiplexing ("TDM") to support multiple lower-capacity digital channels.

You are receiving this notice because you currently use, have purchased, or may receive one or more of the Affected Services from the Company.

[1] This action is being taken by the following affiliates of Lumen Technologies, Inc.: CenturyLink of Florida, LLC; CenturyLink of Minnesota, LLC; CenturyLink of Nevada, LLC; CenturyTel of Chester, Inc.; CenturyTel of Colorado, Inc.; CenturyTel of Cowiche, Inc.; CenturyTel of Eagle, Inc.; CenturyTel of Eastern Oregon, Inc.; CenturyTel of the Gem State, Inc.; CenturyTel of Idaho, Inc.; CenturyTel of Inter Island, Inc.; CenturyTel of Minnesota, Inc.; CenturyTel of Montana, Inc.; CenturyTel of the Northwest, Inc.; CenturyTel of Oregon, Inc.; CenturyTel of Postville, Inc.; CenturyTel of the Southwest, Inc.; CenturyTel of Washington, Inc.; CenturyTel of Wyoming, Inc.; The El Paso County Telephone Company; Qwest Corporation; Telephone USA of Wisconsin; United Telephone Company of the Northwest; and United Telephone Company of the West.

ATTACHMENT A

The Company will grandfather the Affected Services in the States of Arizona, Colorado, Florida, Idaho, Iowa, Minnesota, Montana, Nebraska, Nevada, New Mexico, North Dakota, Oregon, South Dakota, Utah, Washington, Wisconsin and Wyoming. ILEC Intrastate Private Line services were previously grandfathered.

This notice does not apply to circuits required for Local Interconnection Service ("LIS"), Wireless Interconnection Service ("WIS"), Signaling System 7 ("SS7"), or Switched Access ("SWA"), or when connecting to CenturyLink E911 selective router locations. Certain DS-1, DS-3, and SONET Special Access facilities may be used to support critical switched voice network functions.

Once grandfathering is authorized, the Affected Services you receive will not be impacted; however, they will no longer be available for new orders by new or existing customers.

Existing Affected Services will be grandfathered as follows:

- Orders by new or existing customers for new Affected Services will no longer be accepted.
- Move, Add or Change Orders ("MACs") for Affected Services will no longer be accepted.
- Only orders to disconnect Affected Services will be accepted.
- Customers receiving Affected Services under existing contracts will continue to be supported as required until the expiration of the applicable contract term. Contracts covering Affected Services will not be renewed. If your contract includes automatic renewal for a term, this notice constitutes the Company's notice that the Affected Services will not automatically renew.
- Subject to the provisions of your contract, the Affected Services will be converted to month-to-month when your current term expires, at the then-current Interstate Service Guide rates until disconnected or discontinued.

We recognize that this change in service offerings may generate questions, and we are here to assist. Customers with questions regarding this notice, existing service arrangements, or applicable timing should contact their account manager directly or call us at 800-777-9594.

If you are a federal customer, please contact your account representative directly.

We appreciate your business and the opportunity to serve you.

Qwest, CenturyTel, CenturyLink, El Paso County Telephone, Telephone USA, and United Telephone Company

ATTACHMENT A

The following statements are required by the Federal Communications Commission (FCC):

The FCC will normally authorize this proposed discontinuance of service (or reduction or impairment) unless it is shown that customers would be unable to receive service or a reasonable substitute from another carrier or that the public convenience and necessity is otherwise adversely affected. If you wish to object, you should file your comments as soon as possible, but no later than 15 days after the Commission releases public notice of the proposed discontinuance. You may file your comments electronically through the FCC's Electronic Comment Filing System using the docket number established in the Commission's public notice for this proceeding, or you may address them to the Federal Communications Commission, Wireline Competition Bureau, Competition Policy Division, Washington, DC 20554, and include in your comments a reference to the § 63.71 Application of Lumen Technologies, Inc. on behalf of Certain of its Subsidiaries to Grandfather Telecommunications Services. Comments should include specific information about the impact of this proposed discontinuance (or reduction or impairment) upon you or your company, including any inability to acquire reasonable substitute service.

You may also object to or comment on the planned grandfathering by filing electronically through the FCC's Electronic Comment Filing System in WC Docket No. 26-214. It is recommended that any such filing include either a copy of this notice, or information sufficient to permit Wireline Competition Bureau staff to identify the relevant grandfathering application, such as: it is the application of Lumen Technologies, Inc. on behalf of Certain of its Subsidiaries; the location(s) at which service is/are being grandfathered; the date of the notice you received; and the date on which the carrier intends to grandfather service. For further information, the FCC has consumer guides "Tech Transition: Modernizing Communications Services," which may be found at https://www.fcc.gov/tech-transitions, and "When Your Telephone Company Discontinues Service," which may be found at https://www.fcc.gov/notice.

ATTACHMENT B

Section 63.71(c)(8) Certification

I, Guy C. Gunter, certify under penalty of perjury that, to the best of my knowledge, information, and belief, the information required by 47 C.F.R. § 63.71(c)(8) that is submitted in the Section 63.71 Application of Lumen Technologies, Inc. on behalf of Certain of its Subsidiaries For Authority Pursuant to Section 214 of the Communications Act of 1934, As Amended, to Grandfather Telecommunications Services is true and correct.

Guy C. Gunter, Vice President
