BEFORE THE PUBLIC UTILITY COMMISSION

OF OREGON

UE 463

In the Matter of PACIFICORP, d/b/a PACIFIC POWER, Advice No. 25-015, Schedule 401 – Service to New Large Energy Use Facilities.	ALLIANCE OF WESTERN ENERGY CONSUMERS' MOTION TO DESIGNATE PROCEEDING AS ELIGIBLE FOR ISSUE FUNDS

Pursuant to Article 1(e)(v) of the Fifth Amended and Restated Intervenor Funding Agreement ("IFA"), approved on December 29, 2022 by the Oregon Public Utility Commission ("Commission") in Order No. 22-506, and the Chief Administrative Law Judge's February 12, 2018 Ruling in Docket No. UM 1909, the Alliance of Western Energy Consumers ("AWEC") files this motion to designate the above-referenced docket as eligible for an Issue Fund Grant.

Article 1(e)(v) of the IFA defines "Eligible Proceeding for Issue Funds" as, among other things, "any other proceeding so designated by the Commission that directly affects one or more of the Participating Utilities and is anticipated to: (1) have a substantial impact on utility rates or service; (2) have a significant impact on utility customers or the operations of the utility; (3) result in a significant change in regulatory policy; or (4) raises novel question of fact or law." PacifiCorp, d/b/a Pacific Power ("PacifiCorp" or "Company") is a "Participating Public Utility" in the IFA.[1]

[1] IFA, Article 1(k) (Dec. 29, 2022).

On October 2, 2025, PacifiCorp filed proposed tariff to establish a new rate schedule, Schedule 401 – Service to New Large Energy Use Facilities and implement corresponding minor revisions to Schedule 47 – Large General Service Partial Requirements 1,000 KW and Over Delivery Service, Schedule 48 – Large General Service 1,000 KW and Over Delivery Service, and Schedule 90 – Summary of Effective Rate Adjustments. PacifiCorp's proposed tariff and tariff revisions implement HB 3546 for PacifiCorp by establishing a new customer class for Large Energy Use Facilities ("Facilities"). Following some initial process, the Commission docketed this proceeding as UE 463.

The Company's proposed tariff and tariff changes will establish a new rate class for data centers in its service territory that must be consistent with the requirements of HB 3546. Accordingly, these tariff changes are likely to have a substantial impact on PacifiCorp's rates and service, significantly impact PacifiCorp customers, may result in a significant change to regulatory policy, and raise novel questions of fact and law. These and similar issues require significant time, expense, and expertise to establish a full record for the Commission's consideration.

Therefore, for the foregoing reasons, AWEC respectfully moves the Commission to designate this proceeding as an "Eligible Proceeding for Issue Funds" under the IFA.
