RE: Advice No. 26-44, Schedule 115 Low-Income Assistance

Portland General Electric Company (PGE) submits this filing pursuant to Oregon Revised Statutes (ORSs) 757.205 and 757.210, and Oregon Administrative Rules (OARs) 860-022-0025, for filing proposed tariff sheet associated with Tariff P.U.C. No. 19, with a requested effective date of **January 1, 2027**:

Third Revision of Sheet No. 115-1

This filing updates the residential price in Schedule 115, Low Income Energy Assistance, to reflect a 12-month amortization period instead of the current 9-month period. This is the third and final filing related to the implementation of increased collections required by House Bill (HB) 3792 (2025 regular session).

HB 3792 doubled the statewide collection amount from $20 million to $40 million and increased the per bill cap on charges for Energy Assistance from $500 to $1,000, both starting in 2026. The statewide requirement is split among PGE and PacifiCorp customers, with PGE targeting $21.9 million in annual collections. The earlier price update for non-Residential customers enables $10.9 million in annualized collections from non-Residential customers.

PGE's first filing increased the Schedule 115 price for non-Residential Customers, effective January 1, 2026 (ADV 1812 / Advice No. 25-40). The second filing increased the Schedule 115 price for Residential customers, effective April 1, 2026 (ADV 1835 / Advice No. 26-02), in accordance with the winter moratorium on Residential price increases per HB 3179 (the FAIR Energy Act, 2025 regular session). This resulted in a 9-month amortization window in which to collect the annual allocation for Residential customers.

PGE now requests a Residential rate adjustment effective January 1, 2027, to appropriately adjust the amortization window from 9 months to 12 months. This change will lower the Schedule 115 price for Residential customers from $1.24 to $1.08 per bill while maintaining Residential collections of approximately $10.9 million annually.

To satisfy the requirements of OAR 860-022-0025(2), PGE responds as follows:

PGE estimates that approximately 847,000 Residential retail customers will be impacted by this decrease in 2027. The typical Residential (Schedule 7) customer consuming 780 kWh monthly will see a 0.1% decrease to their overall bill.

The enclosed work papers include support for the proposed Schedule 115 prices. Note, these are the same work papers provided in ADV 1812.

SCHEDULE 115
LOW-INCOME ASSISTANCE

PURPOSE

The purpose of this rate schedule is to implement the low-income bill payment assistance provisions in accordance with ORS 757.612(7)(b).

APPLICABLE

To all Retail Electricity Customers, including Customers receiving electricity from other sources and Customers who do not purchase distribution services from PGE per ORS 757.612(8), except those Customers explicitly exempted.

ADJUSTMENT RATES

The applicable Adjustment Rates are listed below. As specified in ORS 757.698(1)(c) and amended by House Bill 3792 (2025), Customers will not be required to pay more than $1,000 per month per Site for low-income bill payment assistance. Sites are defined in Rule B and F of this tariff.

Schedules	Adjustment Rate	
7	$1.08 per month	(R)
All other Schedules, including DSIs	0.138¢ per kWh for the first 724,638 kWh	

SPECIAL CONDITION

1. On a monthly basis, on or before the last day of the month, the Company will forward an amount to the Oregon Housing and Community Services Department (OHCS) based on billings to Customers for the previous month less a reserve for uncollectible amounts.
