**Re: LC 66 – Portland General Electric Company’s 2016 Integrated Resource Plan (IRP)
 Update to Figure 5 of PGE Reply Comments**

Dear Filing Center:

In its Reply Comments filed on March 31, 2017, Portland General Electric Company (PGE) disclosed that it had contemporaneously executed a Power Purchase Agreement (PPA) for output from the Wells hydroelectric project. PGE committed to provide an update to the Commission and Parties on the impact of the remaining 2021 capacity shortage. PGE therefore submits the following Capacity Need chart as an update to Figure 5 on page 52 of the Reply Comments:

FIGURE 5: Capacity Need Impact due to Load and Contracts - Updated

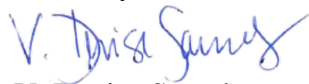

Oregon Public Utility Commission
Attention: Filing Center
April 13, 2017
Page 2 of 2

Please note the following with regard to the updated chart:

- the 135 MW Wells capacity contribution represents a 2021 snapshot. This value declines over time with PGE's share of the project.
- the full 135 MW of capacity contributes to meeting the annual dispatchable capacity requirement described in the IRP Action Plan.
- the "Other Factors" driver of the remaining capacity need is equal to 50 MW (revised downward from 185 MW as stated on page 51 of PGE's Reply Comments).

Please direct any questions concerning this filing to Patrick Hager, Rates and Regulatory Affairs, telephone: 503-464-7580 or email: Patrick.Hager@pgn.com.

Sincerely,

V. Denise Saunders
Associate General Counsel
