Public Utility Commission of Oregon  
PO Box 1088  
Salem, Oregon 97308

Dear Commissioners,

The City Council of Pendleton wishes to endorse Pacific Power's Energy Vision 2020 with its associated Integrated Resource Plan, which will invest approximately \$3.5 billion to provide new wind power and other repowering and transmission support for the 2020 energy goals.

We understand that while rates may increase as much as two percent in the near-term, a long-term benefit of this plan will be a net savings in power costs. Pendleton also supports the goal of lowering our overall carbon footprint.

We ask that the Public Utility Commission support Pacific Power's Integrated Resource Plan.

Respectfully,

John Turner  
Mayor of Pendleton
