

April 17, 2023

Dear Judge Mellgren,

Your memorandum issued April 14 Says," Additionally, please note that the Commission may identify witnesses it wishes to question on Thursday, April 20, 2023, if any, as late as the end of the day on Wednesday, April 19, 2023. This may include witnesses not identified by any party in a cross-examination statement. Accordingly, all witnesses should remain available for the hearing on Thursday, April 20, 2023."

I have an in-person work meeting required for my job from 9 to 2 on April 20 in Joseph. I must leave La Grande at 7:30 to make it on time. Does the above statement mean that I need to be available even though I did not ask to cross examine anyone? If so, is it possible I could phone in after 2 p.m. and check? Or could some other arrangement be made?

As far as evidence from Huddle I am asking to admit, I understand I must provide a copy of my Data response to Idaho Power's request. Should I do that at this time? What about Idaho Power's data responses to OPUC? Shall I also provide copies of those, or will Idaho Power be providing those?

Thank you for your consideration.

Sincerely

Susan Geer
