Subject: Re: OPUC Docket ---STOP Idaho Power Profit Grab/ Environmental Destruction --- Will OPUC do the Right thing??????

OPUC Commissioners,

Please answer, HOW, exactly, the facts and the truth, in any way support the for-profit monopoly Idaho Power Corporation's, invention of the B2H application, would fulfill the following Mission:

- improve the lives of Oregonians through effective utility regulation
- fairly priced utility services
- promote the public interest
- recognize our impact on all communities

--well-reasoned, independent decisions supported by fact

--meet rapid change in our regulated industries.

--transformation in utility services consistent with Oregon's social, environmental, and economic goals.*

Thank you for making clear, justifying statements with citations. Or is that too much to ask? Or just not possible?

Peter Barry

*bulleted points from the OPUC Mission Statement

It is 2023 --- not 1923, not the era of Rural Electrification, it is a time of 'do or die' necessity for extremely rapid change in human enterprise and priority. Which era are you in?
