Re: UM 1481 – Response of Verizon Wireless to Bench Request

Dear Sir/Madam:

Verizon Wireless hereby provides information to the Commission in response to the Administrative Law Judge's Bench Request issued May 5, 2014, and clarified on May 8. Verizon Wireless is not a party to this proceeding, and is not regulated by the Commission, but provides the attached information on a voluntary basis to assist the Commission's investigation. By providing this information, Verizon Wireless is not submitting to the Commission's jurisdiction, nor should the provision of this information be deemed a submission by Verizon Wireless to the Commission's jurisdiction.

A single copy is being provided electronically. An original and five copies of the confidential material are being sent separately by U.S. Mail.

Sincerely,

A handwritten signature in blue ink that reads "Jacque Lopez".

Enclosures

cc: All parties (via e-mail)

Bench Request No. 5. For each OUSF-supported exchange: all non-ILEC providers of terrestrial-based broadband services, including, but not limited to, cable and wireless providers.

- a. For each such provider, information as to whether it offers telephony services over those facilities.
- b. For each such provider, whether such telephony services are offered over its own facilities or via resale of ILEC-provided facilities.
- c. For each such provider, the market penetration of broadband services.

Response: Verizon Wireless objects to the request for information about “all non-ILEC providers” of broadband services, including “wireless providers,” because Commercial Mobile Radio Service wireless services are not subject to the jurisdiction of the Commission, and because Verizon Wireless is not a party to this proceeding. Subject to and without waiving this objection, Verizon Wireless provides the information below on a voluntary basis to assist the Commission’s investigation. By providing this information, Verizon Wireless is not submitting to the Commission’s jurisdiction, nor should the provision of this information be deemed a submission by Verizon Wireless to the Commission’s jurisdiction.

Verizon Wireless also objects to this request to the extent it requests information that the company does not maintain in the ordinary course of business and would be burdensome to produce. In particular, Verizon Wireless does not maintain information about its broadband services based on “each OUSF-supported exchange,” a phrase that is not defined and is ambiguous. Verizon Wireless also objects to the request to the extent it requests confidential and proprietary information. Subject to and without waiving its objections, Verizon Wireless responds as follows:
