Re: UM 1746, Comments on Staff's Draft Recommendations

Dear Filing Center,

On September 18, 2015, the Public Utility Commission of Oregon ("PUC") Staff issued a Draft Recommendations on Program Attributes and Characteristics ("Draft Recommendations"). Vote Solar appreciates the hard work of staff in developing their Draft Recommendations. After reading the Draft Recommendations and participating in the workshop on September 22, 2015, Vote Solar agrees with much of staff's intent and objectives. However, we do have some concerns with the Draft Recommendations. IREC has done an excellent job of listing and addressing these concerns. Vote Solar fully supports the comments of IREC.

We look forward to continued engagement with other stakeholders during this docket and beyond. Thank you for your time.

Sincerely,

Nathan Phelps
