You don't often get email from priscilla@saltmarshranch.com. Learn why this is important

To the PUC filing center:

I respectfully request that you add this submission to this docket and that you take whatever steps are necessary to bring it to the attention of the Commissioners as early as possible in the morning (Wednesday, July 9) before they rule on CUB's emergency motion.

I apologize this is not in the proper format. We are literally surrounded by nearly a dozen wildfires and there is not time for niceties.

Thank you.

HERE IS MY SUBMISSION:

Commissioners: I have read Lumen/Century/Link's response to CUB's motion. The response is appallingly callous and frankly, shocking. Lumen/CL says it is willing to meet with the PUC Staff and CUB to talk about all this. A meeting? Really? Will tea and cookies be served?

Here's why a meeting, or a leisurely inquiry into whether we are telling the truth about the absence of a working Commission-ordered Dedicated Outage Reporting System, is out of the question. In the last 24 hours, over a dozen wildfires have broken out all around us; a brand new one (Demming) sprang from nothing this afternoon and is already at 100 acres, and it is off Sterling Creek Road, where some of Lumen's vulnerable and supposedly "protected" customers live. There are "structures" within a half mile of the fire. Here's evidence to support this paragraph:

Please do not let Lumen get away with this. We had at least four outages in June. Any outage right now could have catastrophic consequences if the predicted thunderstorms keep rolling through.

I implore you on behalf of the 4000+ vulnerable customers covered by your Orders and the Stipulation: Direct Lumen right now, with an order, to get that dedicated reporting system back up and fully running as you ordered them to. Order them to rid of the robots and the ridiculous hoops they are making us go through just to report. And since nothing else works to make them follow the law and your orders, fine them as heavily as your authority allows.

Respectfully submitted,

Priscilla Weaver
