Hello Oregon Public Utility Commission,

I am a Portland business owner, writing to ask you to approve Neighborhood Powers application. The communities solar program has been on our radar for sometime and we are looking forward to being a part of it. We believe that renewable energy is vital to our community and we look forward to being beneficiary of this program.

Again we ask that you approve Neighborhood Powers project(s). If we can do anything further to support you or your organization in this decision, please feel free to let us know.

Warm Regards,  
Tyler Burnard

Dear Oregon Public Utility Commission,

This email is in support for Neighborhood Powers application and that application being approved

I just emailed you from a separate business email. However, this business is directly tied to local and national property owners with real estate and development. We develop, both, raw land and existing structures for residential and commercial investors, as well as ourselves. The renewable energy programs that Neighborhood Power offer, specifically this community solar program is the exactly the type that we invest in and build into our executive summaries for investors. You approving this application is in direct connection to support those property owners we work with and invest with.

If you have any further questions about our business and the positive impact this approval will provide, please reach out.

Warm Regards,  
Tyler Burnard
