Re: LC 62 and LC 67 – PacifiCorp’s Written Report on DSM IRP Acquisition Goals, Environmental Compliance and Transmission Investments – 2019 Second Update Errata

On February 27, 2020, PacifiCorp d/b/a Pacific Power filed its second updated written report on demand side management (DSM) integrated resource plan acquisition goals, environmental compliance, and transmission investments for 2019. While responding to questions from NW Energy Coalition regarding to the filing, PacifiCorp discovered issues related the DSM information provided in the report. PacifiCorp submits this errata filing to correct the issues identified below:

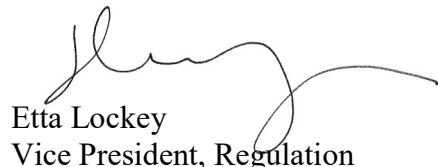

1. The cover letter contained a clerical error and should not have included a reference to an update for 2017 and 2018 DSM information. The last paragraph on page 1 on the filing cover letter should have read:

The Semi-Annual DSM Update slide deck provides an update on the 2019 targeted energy savings forecast by state. The Environmental Compliance and Transmission Investment Update slide deck includes updates throughout, building upon information provided in PacifiCorp’s last update.

2. The DSM data on slide 2 was incorrect. The enclosed slide 2 reflects updated DSM data.
3. The link on slide 3 referenced an outdated web address for additional DSM information. The company updated slide 3 to reference the new address for the web page.

Please direct any questions regarding this report to Cathie Allen, Regulatory Affairs Manager, at (503) 813-5934.

Sincerely,

Etta Lockey
Vice President, Regulation
