Re: UM 1930—Annual Community Solar Program Bill Credit Rate Update

PacifiCorp d/b/a Pacific Power (PacifiCorp) submits for filing this letter regarding its annual update to the Community Solar Program (CSP) bill credit rate memorialized in Schedule 127.

In Order No. 19-392, the Public Utility Commission of Oregon (Commission) directed PacifiCorp to file an update to its CSP bill credit rate by January 1st of every year. In communications with Commission Staff (Staff), Staff indicated that it was appropriate to incorporate any revisions to Schedules 4, 200, and 201 (Component Schedules) that may occur in PacifiCorp's General Rate Case proceedings (docket UE 374) in PacifiCorp's annual CSP bill credit rate update. PacifiCorp filed its revisions to the Component Schedules on December 28, 2020, requesting an effective date of January 1, 2021. Because the Commission has not yet approved the revised Component Schedules, and because they are not yet effective, PacifiCorp consulted with Staff regarding postponing filing an update to PacifiCorp's CSP bill credit rate until after the effective date of the Component Schedules. Consequently, PacifiCorp expects to file a revision to Schedule 127 updating the CSP bill credit rate shortly after the January 1, 2021 effective date of the Component Schedules.

Please direct any informal correspondence and questions regarding this filing to Cathie Allen, Regulatory Affairs Manager, at (503) 813-5934.

Sincerely,

Etta Lockey
Vice President, Regulation
