Workshop Purpose

On July 28, 2021, Public Utility Commission of Oregon Staff (Staff) released its updated [Wildfire Mitigation Rulemaking strategy](#). The strategy includes two phases: I) permanent rules that address the near-term procedural requirements of Senate Bill (SB) 762 on an accelerated timeline; and II) additional permanent rules that provide further detail and guidance for utility wildfire mitigation planning and preparation (adoption by Spring 2022).

The purpose of this workshop is to discuss the updated rulemaking strategy and gather feedback on the proposed Phase II scope and schedule.

The workshops will be held virtually using Zoom. Details of the agenda will be distributed approximately one week before the schedule workshop.
