Re: LC 66 – PGE’s 2016 Integrated Resource Plan

At the August 8, 2017 OPUC Public Meeting, in which the Commission considered PGE’s 2016 IRP (LC 66), the Commission directed PGE to work with stakeholders to develop a revised resource action for renewables and report back within 60 days. Since that time, PGE has been engaged in discussions with Staff and other stakeholders.

PGE would like the opportunity to update the Commission on these discussions at its October 10, 2017 Public Meeting and confirm this update and timing meets the intent of the requested report back within 60 days.

If you have any questions, please feel free to contact me at (503) 464-7580.

Sincerely,
