

LC 80 PGE 2023 CEP/ IRP Notice of Related Filing in UM 2274

July 27, 2023

Notice to LC 80 Stakeholders:

PUC Staff would like to draw stakeholders' attention to a recent filing in Docket No. UM 2274 for PGE's 2023 Request for Proposals. In [Order No. 23-146](#), the Commission granted PGE's Request for Partial Waiver of the Commission's Competitive Bidding Rules. As a part of that request, PGE sought approval for the concurrent review of its 2023 CEP/IRP and its 2023 RFP. At the time that request was granted, Staff committed to maintaining communication and alignment across the two dockets where and whenever possible.

In Order No. 23-146, the Commission also directed PGE to file a procurement forecast document to provide additional detail on the Company's procurement plans over the next several years. Specifically, the Commission was interested in how PGE intended to manage multiple RFPs over the next several years while adhering to the Competitive Bidding Rules or what waivers or other divergences from those rules might be necessary.

Per that order, PGE filed a Planning and Procurement Forecast on Monday, July 17, 2023. Staff is providing this notice to make stakeholders to Docket No. LC 80 aware of that filing as there is some discussion and analysis that will be of interest in PGE's CEP/IRP review. A link to that filing has been provided below. Staff will continue to provide updates as necessary to maintain consistent communication and alignment across the RFP and CPE/IRP proceedings.
