

April 25, 2023

Dear Judge Mellgren,

The following is still unclear to me:

Does my expert witness need to provide an additional declaration for his testimony that was part of my Opening or Rebuttal Testimony-- for which he already provided a one sentence declaration as part of it?

Does he need to provide a declaration for his narrative and map provided as an answer to IPC data request in Huddle?

What about letters from others that were already part of my testimonies in PCN5? For example, letters about EFSC's protected areas rulemaking process?

I have a question in to Judge Moser, but in the meantime, I have meetings for work for the rest of the day. So If the answer is yes, then I request an extension.

Thank you for your consideration.

Sincerely

Susan Geer
