Subject: RE: OnFiber Communications

Rick-

OnFiber has been totally integrated into our company. The facilities are subject to the NESC and Commission rules and handled with the rest of CenturyLink's safety program.

Please let me know if you have any other questions.

Thank you.

Subject: OnFiber Communications

As we pursue Oregon's facility operators to discover the status of their NESC Inspection Program it is important for us to apply the reporting requirements equally across all Operators, in the state.

It has come to our attention that in 2007 Qwest Communications acquired OnFiber Communications as a non-regulated subsidiary.

If so:

Is OnFiber still a subsidiary of what is now known as CenturyLink?

If so:

It is our understanding that OnFiber owns and operates a Metro Area Network (MAN) within the state?

If so:

It is our determination that the Company and its OSP facilities are subject to the NESC and the Commission Safety Rules.

As the parent company of this concern, we are requesting the contact information for OnFiber Communications.

Please reply no later than COB on Tuesday April 9, 2013
