RE: UE 250 – PGE Minimum Filing Requirements and Work Papers

Commission Order No. 08-505 in Docket No. UE 198 adopted a list of Minimum Filing Requirements (MFRs) for Net Variable Power Cost (NVPC) proceedings. The MFRs define the documents PGE will provide in conjunction with the initial and update filings in its Annual Power Cost Update Tariff and general rate case proceedings.

Enclosed are an original and three courtesy copies of the MFRs for PGE's initial 2013 Annual Power Cost Update filing submitted March 30, 2012, in Docket No. UE 250. The MFRs include "supporting documents and work papers" for the following: forward curve inputs, load inputs, thermal plant inputs, hydro inputs, electric and gas contract inputs, wheeling inputs, wind power inputs, and historical operating data. Please note that the summaries provided with PGE's March 30, 2012, filing in Volume 8 for Step 0c (Boardman SO₂ Control) and Step 0d (Boardman Mercury Control) have been revised slightly for this filing in order to clarify the units in the cost calculations.

Attachment 1 is one (1) DVD containing the confidential MFRs. Attachment 1 is confidential and subject to Protective Order No. 12-120. Attachment 2 is one (1) DVD containing the non-confidential MFRs. Attachment 3 is one (1) CD containing the load forecast work papers.

If you have any questions, please feel free to contact Robert Brown at (503) 464-8237. Please direct all formal correspondence and requests to the following e-mail address: pge.opuc.filings@pgn.com.

Sincerely,

Randall J. Dahlgren
