RE: UE 335 – Planned Thermal Maintenance Update

Filing Center:

In accordance with OPUC Order No. 09-433 and the stipulation approved therein, PGE is providing this letter as notification of changes to the forecast of planned maintenance outages and testing for the Beaver, Carty, Coyote Springs, Port Westward 1, and Port Westward 2 generating facilities. Collectively, PGE estimates these changes to result in a power cost decrease of approximately \$41,000. PGE will include the revised forecast of planned maintenance outages and testing in its MONET update to be filed on July 6, 2018.

Detailed descriptions of the changes to the planned maintenance outage and testing schedules are enclosed as Attachment A. A work paper providing updates to the planned maintenance outage and testing schedules for the plants identified above is enclosed as Attachment B. Attachments A and B are protected information and subject to Protective Order No. 18-047. Attachments will be sent via Fed-Ex to the filing center.

If you have any questions or require further information, please contact Greg Batzler at 503-464-8644. Please direct all formal correspondence and requests to the following email address: pge.opuc.filings@pgn.com.

Sincerely,

A handwritten signature in blue ink, appearing to read "Stefan Brown" with a large flourish above it. Below the signature, the word "for" is written in blue ink.

Stefan Brown
