September 11, 2026

Avista Utilities Request for Approval of New Schedule 465, Targeted Voluntary Electrification (TVE) Pilot

This announcement notifies parties of Docket UG 519 that a workshop and round of comments will be held for the new programmatic tariff, Schedule 465, Targeted Voluntary Electrification (TVE) Pilot.

Background

Pursuant to ORS 757.205 and OAR 860-022-0025, Avista submitted for filing with the Oregon Public Utility Commission its proposed introduction of a new programmatic tariff, Schedule 465, Targeted Voluntary Electrification (TVE) Pilot, in P.U.C OR No. 5. The filing seeks to implement the TVE commitment approved in Settlement Stipulation (Stipulation) of Avista's 2024 general rate case (GRC), Docket UG 519.

Next Steps

Staff is targeting a workshop sometime between September 28 and October 9, with a subsequent comment deadline for all stakeholders requested for October 16, 2026. Staff intends to use the workshop to allow Avista to walk stakeholders through the tariff and be available for questions and answers and will schedule the workshop based on stakeholder availability.

Staff is hoping to bring the tariff for approval to the December 8th public meeting, but if needed, can accommodate the December 22nd public meeting.

Staff requests that stakeholders email Alondra Regalado with questions or concerns about the proposed schedule accommodate schedules across the stakeholders..

Date	Event
