

## Docket Update

November 18, 2024

### Docket No. UM 1930: Staff Correction on Remaining Community Solar Program (CSP) Carve-out Capacity in Pacific Power Service Territory

Staff issues this communication to correct an error in its November 15, 2024, communication in Docket No. UM 1930.<sup>1</sup> In that communication, Staff indicated there is currently 4.93 MW of unallocated carve-out capacity in Pacific Power service territory. Staff, however, issues this communication to confirm there is currently 5.8 MW of unallocated carve-out capacity in Pacific Power service territory. Staff has since corrected this error in the November 15, 2024 filing.

Staff directs stakeholders to its November 15, 2024, filing in Docket No. UM 1930 for discussion of the PA and OPUC process for reviewing Pre-certification applications, recommending projects for Pre-certification, and PA and Staff communications regarding remaining unallocated Program capacity.
