Docket No. UM 1930 – Oregon Community Solar Program (CSP) Procedural Schedule for Staff Review of Transition Regarding Administration Costs

In [Order No. 19-392](#) (2019), the Commission adopted a policy decision to set administrative fees based on an expected transition point of 80 MW-AC of operating and billing CSP capacity, after which administrative costs of the program were forecasted to be coverable by project owners and subscribers. With 100 MW of capacity operational, administrative costs are not currently fully covered by administrative fees. Staff is now reviewing the Program and will propose recommendations for aligning Program revenue and administrative costs to ensure a financially self-sustaining Program in the future.

Staff presents the following procedural schedule and invites stakeholders to engage in this process.

Activity	Date
Staff draft proposal published	May 11, 2026
Written comments due for inclusion in Staff Memo	June 1, 2026
Public meeting for Commission consideration of Staff recommendations	June, 2026 - target
