

UM 2005 Distribution System Planning Data Transparency Workshop Agenda

May 3, 2021

Greetings UM 2005 Service List members. Staff is pleased to announce the agenda for the May 7 Data Transparency Workshop, scheduled from 9:00 am – 12:00 pm Pacific.

The Workshop will be facilitated by Matthew Tisdale, Executive Director of Gridworks, a non-profit that convenes, educates, and empowers stakeholders who work to decarbonize the economy. In 2020, Gridworks served as consultant to the Commission for the UM 2005 docket.

Reminder

The Workshop will be a working session and the progress made will depend on attendee's active participation and contribution. In order to prepare for the Workshop, Staff asks parties to 1) become familiar with Figure 2 in the paper *Data and the Electricity Grid*, included in the Workshop plan (link below), and 2) prepare to discuss the following questions:

1. What would you add to Figure 2 to make it comprehensive and reflective of Oregon in 2021?
2. What inaccuracies need correcting for Oregon in 2021?

Staff will be updating Figure 2 to reflect DSP Guideline requirements.
