Phone Conference ID: 785 366 681#

Agenda

1. Background and Introduction (1:30 – 1:35)

2. Utility Presentations (1:35 – 3:05)

Given the number of issues and information to cover, Staff asks that parties attempt to target questions and discussions on the topic at hand. Utilities will each present their findings and discuss the numbers contained in the data filed on January 25, 2022. Then stakeholders will have time to clarify any questions regarding each utility's filing. Once all stakeholders have had a chance to establish a base level of understanding of the numbers presented in the filing, the Staff hopes that the discussion can then focus on implications and takeaways for capacity valuation and Staff's best practices document.
