## **UM 2111 Interconnection Modernization** Opportunity for Comments

This letter is a follow up to the May 7, 2025, UM 2111 workshop. At the workshop, Staff announced intentions to present a finalized scope, along with a proposal to address issues in Phase 2 of the investigation. At the workshop parties raised several issues, and at least one new proposal. Staff would like to provide one more opportunity for stakeholders to add any additional details to their proposals, or topics to address, while Staff continues to work on their proposal.

If there are additional comments, please provide them by Friday, May 30, 2025. Staff will consider comments received (in addition to materials previously provided) in developing their proposal, with plans to release the proposal approximately four weeks following receipt of comments.

**If you have questions about this investigation, or announcement, please contact:**
