

**Docket No. UM 2178**  
**Natural Gas Fact Finding**

**Update on Fact Finding Report**

Staff is committed to incorporating the feedback received on the NGFF report. However more time will be needed to finalize it. Staff will not be providing a Final Report by August 12, but expects to complete it this year and will provide more information on the final report's timeline in September.

The overwhelming sentiment from both the written and verbal feedback was to prioritize near-term actions related to CPP compliance and risk mitigation. Continued work to complete the report will not prevent Staff from raising CPP compliance and risk mitigation-related issues in ongoing planning dockets, ratemaking dockets, and program-related activities, nor will it prevent the Commission from seeking analysis of new issues or initiating new proceedings. Staff will continue to notify stakeholders of gas docket activities and deadlines.
