Attachment
Pursuant to ORCP 36(C)(1), OAR 860-001-0080 and OAR 860-001-0420, Idaho Power Company ("Idaho Power" or "Company") moves for the entry of the Public Utility Commission of Oregon's ("Commission") general protective order in this proceeding. Good cause exists to issue a Protective Order to protect the Company's commercially sensitive and confidential business information produced in this docket.

In support of this Motion, the Company states:

1. The Commission's rules authorize Idaho Power to seek reasonable restrictions on discovery of trade secrets and other confidential business information. See 860-001-0080; ORCP 36(C)(1) (providing protection against unrestricted discovery of "trade secrets or other confidential research, development, or commercial information"). See also In re Investigation into the Cost of Providing Telecommunication Service, Docket UM 351, Order No. 91-500 (1991) (recognizing that protective orders are a reasonable means to protect "the rights of a party to trade secrets and other confidential commercial information" and "to facilitate the communication of information between litigants").

2. On January 31, 2020, Idaho Power filed its Amended 2019 Integrated Resource Plan. Discovery is ongoing. Certain documents responsive to data requests may contain confidential material, including but not limited to proprietary cost data and models, commercially sensitive load and resource projections, confidential market analyses and business projections, and confidential information regarding contracts for the purchase or sale of electric power,
power services, or fuel. Public disclosure of the confidential information would be detrimental to Idaho Power and its customers.

For the foregoing reasons, Idaho Power requests entry of a General Protective Order in this docket.
