1. The name and address of the petitioner is:

League of Oregon Cities
PO Box 928

Phone number: (503) 588-6550

2. The LOC's authorized representative for purposes of these proceedings is Scott Winkels. LOC's attorney for purposes of these proceedings is Paul Nolte. All communications regarding these proceedings should be provided to LOC's authorized representative and attorney at the following addresses:

3. LOC is an intergovernmental entity comprised of all 242 incorporated cities in Oregon. LOC serves its member cities by providing them a wide array of services. These services include research, education and training on topics relating to municipal business and governmental operations. The LOC also provides policy advocacy for its members before a wide array of administrative agencies and legislative bodies. LOC has participated in numerous proceedings before the Commission.

4. Several of LOC's member cities have installed, or are in the process of installing, solar electricity generation on municipally owned facilities. It is a common practice for a city wishing to install solar electricity generation on a municipally owned facility to lease space to an entity that specializes in solar power system construction and maintenance. As such, cities represented by LOC will be impacted by the resolution of DR 40.

5. LOC's participation in these proceedings will be in the public interest and will not unreasonably broaden the issues, burden the record, or delay the proceeding.

LOC requests the Commission to grant this petition to intervene with full party status in this proceeding.
