NewSun is a Delaware limited liability company that invests in and manages its affiliates engaged in the development of renewable energy facilities in the Pacific Northwest.

NewSun has special knowledge or expertise that may assist the Commission in resolving the issues in this proceeding. NewSun has experience with investing in the development of projects, negotiating power purchase agreements, financial modeling, project development, project financing, permitting, renewable and clean energy standards, energy and capacity values, interconnection, transmission, and resource planning. The outcome of this docket could have a direct impact on NewSun's business, and NewSun has an interest in advancing sound legal, policy and fact-based decisions at the Commission, in the State of Oregon, in the Pacific Northwest and in regional markets. NewSun has participated in other regulatory dockets before the Commission including regarding integrated resource planning, requests for proposals, Public Utility Regulatory Policy Act implementation, avoided costs, interconnection, capacity valuation, resource adequacy, rate cases, and clean energy policy. NewSun anticipates participating to the

extent necessary to ensure its interests are protected. NewSun's interests are not adequately represented by any other party, and its participation will assist the Commission in resolving issues.

Based on the information provided above in compliance with the Commission's rules of procedures, NewSun requests approval to participate in these proceedings as an intervenor. NewSun's participation in this docket will not unreasonably broaden the issues, burden the record, or unreasonably delay this proceeding.

NewSun therefore respectfully requests that the Commission grant this Petition to Intervene.

Dated this 19th day of April 2023.

Respectfully submitted,

NewSun Energy LLC
