

To RVOS stakeholders:

Staff is conducting a workshop on September 19, in Portland, from 9:00 a.m. to noon to review and gather input on the July 18, 2019 compliance filings in the three utility-specific RVOS dockets:

- PacifiCorp: Docket No. UM 1910, Order No. 19-021
- Idaho Power: Docket No. UM 1911, Order No. 19-022
- PGE: Docket No. UM 1912, Order No. 19-023

The workshop will address the following RVOS elements:

- Generation capacity: Value shaped across 12 month x 24 hour blocks.
- Transmission & Distribution capacity deferral:
  1. Values shaped across 12 x 24 blocks
  2. Preliminary identification of areas with higher than average values and lower than average values, relative to the system average value.
- Time permitting: Line losses, values expressed in 12 x 24 blocks.

The specific Portland location and a call-in number, along with a more detailed agenda, will be distributed at least a week prior to the workshop.

Please feel free to contact me with any questions or comments.

Thank you.
