**(2) "Authorized attachment space" means the usable space occupied by one or more attachments on a pole by an occupant with the pole owner's permission.**

**(3) "Carrying charge" means the costs incurred by the owner in owning and maintaining poles or conduits. The carrying charge is expressed as a percentage. The carrying charge is the sum of the percentages calculated for the following expense elements, using owner's data from the most recent calendar year and that are publicly available to the greatest extent possible:**

**(a) The administrative and general percentage is total general and administrative expense as a percent of net investment in total plant.**

**(b) The maintenance percentage is maintenance of overhead lines expense or conduit maintenance expense as a percent of net investment in overhead plant facilities or conduit plant facilities.**

**(c) The depreciation percentage is the depreciation rate for gross pole or conduit investment multiplied by the ratio of gross pole or conduit investment to net investment in poles or conduit.**

**(d) Taxes are total operating taxes, including, but not limited to, current, deferred, and "in lieu of" taxes, as a percent of net investment in total plant.**

**(e) The cost of money is calculated as follows:**

**(A) For a telecommunications utility, the cost of money is equal to the rate of return on investment authorized by the Commission in the pole or conduit owner's most recent rate or cost proceeding;**

**(B) For a public utility, the cost of money is equal to the rate of return on investment authorized by the Commission in the pole or conduit owner's most recent rate or cost proceeding; or**

**(C) For a consumer-owned utility, the cost of money is equal to the weighted average of the utility's embedded cost of debt and the most recent cost of equity authorized by the Commission for ratemaking purposes for an electric company as defined in OAR 860-038-0005.**

**(24) "Commission pole attachment rules" mean ~~OAR 860-028-0110 through 860-028-0240~~ the rules provided in OAR Chapter 860, Division 028.**

**(#) "Conduit" means a single pipe or specially designed and fabricated series of pipes used to protect electrical, cable television or communications cables from fire. Conduit may be used between the floors of buildings or underground between manholes or hand-holes. When more than one pipe is used, the opening in which the facility is placed is referred to as ducts.**

(46) "Conduit *System*" means any structure, or section thereof, containing one or more ducts, ~~conduits~~, manholes, or handholes, ~~bolts, or other facilities~~ used for any ~~telegraph~~, telephone, cable television, electrical, or communications conductors, or cables ~~rights-of-way~~, owned or controlled, in whole or in part, by one or more public, telecommunications, or consumer-owned utilities.

(57) "Consumer-owned utility" has the meaning given in ORS 757.270.

(8) "**Duct**" means a single enclosed raceway for conductors or cables.

(69) "Government entity" means a city, a county, a municipality, the state, or other political subdivision within Oregon.

Make ready work costs are nonrecurring costs, and are not contained in carrying charges.**

(12) "**Net investment**" is equal to the gross investment, from which is first subtracted the accumulated depreciation, from which is next subtracted related accumulated deferred income taxes, if any.

(13) "**Net linear cost of conduit**" is equal to net investment in conduit divided by the total length of conduit in the system multiplied by the number of ducts in the system.

**(2) In this rule:**

**(a) “Carrying Charge” means the percentage of operation, maintenance, administrative, general, and depreciation expenses, taxes, and money costs attributable to the facilities used by the licensee. The cost of money component shall be equal to the return on investment authorized by the Commission in the pole owner’s most recent rate proceeding.**

**(b) “Pole Cost” means the depreciated original installed cost of an average bare pole of the pole owner.**

**(c) “Support Equipment” means guy wires, anchors, anchor rods, grounds, and other accessories of the pole owner used by the licensee to support or stabilize pole attachments.**

There is a rebuttable presumption that six feet of a pole are buried below ground level.**

**(3) The A disputed pole attachment rental rate per foot will be is computed by taking multiplying the pole cost times by the carrying charge and then dividing the resultant product by the usable space per pole. The rental rate per pole is computed as the rental rate per foot times multiplied by the licensee’s authorized attachment space, portion of the usable space occupied by the licensee’s attachment.**

**(4) A disputed support equipment rental rate will be computed by taking the support equipment cost times the carrying charge times the portion of the usable space occupied by the licensee’s attachment.**

**(5) The minimum usable space occupied by a licensee’s attachment is one foot.**

**(6) The rental rates referred to in sections (3) and (4)(2) of this rule do not ~~cover~~include the costs of attachment to support equipment, permit application processing, special inspections, or preconstruction activity, post construction inspection, make ready, change-out, and rearrangement work; or the costs related to unauthorized attachments. Charges for those activities shall beare based on actual (~~including administrative~~) costs, including administrative costs, and will be charged in addition to the rental rate.**

**(4) Authorized attachment space for rental rate determination must comply with the following:**

**(a) The initial authorized attachment space by a licensee's attachment on a pole must not be less than 12 inches. The owner may authorize additional attachment space in increments of less than 12 inches.**

**(b) For each attachment permit, the owner will specify the authorized attachment space on the pole that is to be used for one or more attachments by the licensee. This authorized attachment space will be specified in the owner's attachment permit.**

**(c) An additional or modified attachment by the licensee that meets the Commission safety rules and that is placed within the licensee's existing authorized attachment space will be considered a component of the existing pole permit for rental rate determination purposes. Such attachment additions or modifications may include, but are not limited to, cabinets, splice boxes, load coil cases, bonding wires and straps, service drops, guy wires, vertical risers, or cable over-lashings.**

**(5) The owner may require reasonable prepayment from a licensee of the owner's estimated costs for any of the work allowed by OAR 860-028-0100. The owner's estimate will be adjusted to reflect the owner's actual cost upon completion of the work. The owner will promptly refund any overcharge to the licensee.**

**(6) The owner must be able to demonstrate that charges under sections (3) and (5) of this rule have been excluded from the rental rate calculation.**

**Rental Rates and Charges for Attachments by Licensees to Conduits Owned by Public Utilities, Telecommunications Utilities, and Consumer-Owned Utilities**

(1) This rule applies whenever a party files a complaint with the Commission pursuant to ORS 757.270 through ORS 757.290 or ORS 759.650 through ORS 759.675.

~~(2) As used in this rule:~~

~~(a) "Annual Carrying Charge" shall be equal to the return on investment authorized by the Commission in the conduit owner's most recent rate proceeding times the conduit cost.~~

~~(b) "Annual Operating Expense" means annual operating maintenance, administrative, general, depreciation, income tax, property tax, and other tax expenses attributable, on a per-duct basis, to the section of conduit occupied by the licensee.~~

~~(c) "Conduit Cost" means the depreciated original installed cost, on a per-duct basis, of the section of conduit occupied by the licensee.~~

~~(d) "Duct" means a single enclosed raceway for conductors or cable.~~

~~(e) "Surplus Ducts" means ducts other than those occupied by the conduit owner or a prior licensee, one unoccupied duct held as an emergency use spare, and other unoccupied ducts that the owner reasonably expects to use within the next 18 months.~~

~~(32) The A disputed conduit rental rate per linear foot will be computed by adding the annual operating expense to the annual carrying charge and then multiplying by the number of ducts occupied by the licensee multiplying the percentage of conduit capacity occupied by the net linear cost of conduit and then multiplying that product by the carrying charge.~~

~~(43) A licensee occupying part of a duct shall be deemed to occupy the entire duct.~~

~~(54) Licensees shall must report all attachments to the conduit owner. A conduit owner may impose a penalty charge for failure to report or pay for all attachments. If a conduit owner and licensee do not agree on the penalty and submit the dispute to the Commission, the penalty amount will be five times the normal rental rate from the date the attachment was made until the penalty is paid. If the date the attachment was made cannot be clearly established, the penalty rate shall will apply from the date the conduit owner last inspected the conduit in dispute. The~~

last inspection ~~date shall be~~ deemed to be no more than ~~three~~five years before the unauthorized attachment is discovered. The conduit owner also ~~shall~~may charge for any expenses it incurs as a result of the unauthorized attachment.

~~(65)~~ The conduit owner ~~shall~~must give a licensee 18 months' notice of its need to occupy licensed conduit and ~~shall~~will propose that the licensee take the first feasible action listed:

- (a) Pay revised conduit rent designed to recover the cost of retrofitting the conduit with multiplexing, optical fibers, or other space-saving technology sufficient to meet the conduit owner's space needs;
- (b) Pay revised conduit rent based on the cost of new conduit constructed to meet the conduit owner's space needs;
- (c) Vacate ducts that are no longer surplus;
- (d) Construct and maintain sufficient new conduit to meet the conduit owner's space needs.

~~(7) When two or more licensees occupy a section of conduit, the last licensee to occupy the conduit shall be the first to vacate or construct new conduit. When conduit rent is revised because of retrofitting of space-saving technology or construction of new conduit, all licensees shall bear the increased cost.~~

~~(8) All conduit attachments shall meet local, state, and federal clearance and other safety requirements, be adequately grounded and anchored, and meet the provisions of contracts executed between the conduit owner and the licensee. A conduit owner may, at its option, correct any attachment deficiencies and charge the licensee for its costs. Each licensee shall pay the conduit owner for any fines, fees, damages, or other costs the licensee's attachments cause the conduit owner to incur.~~

(6) The rental rates referenced in section (2) of this rule do not include the costs of permit application processing, special inspections, preconstruction activity, post construction inspection, make ready work, and the costs related to unauthorized attachments. Charges for activities not included in the rental rates will be based on actual costs, including administrative costs, and will be charged in addition to the rental rate.

(7) The owner may require reasonable prepayments from a licensee of owner's estimated costs for any of the work allowed by OAR 860-028-0100. The owner's estimate will be adjusted to reflect the owner's actual cost upon completion of the work. The owner will promptly refund any overcharge to the licensee.

(8) The owner must be able to demonstrate that charges under sections (6) and (7) of this rule have been excluded from the rental rate calculation.
