

ISSUED: October 20, 2009

**BEFORE THE PUBLIC UTILITY COMMISSION
OF OREGON**

UE 196

In the Matter of

PORTLAND GENERAL ELECTRIC
COMPANY

Application to Amortize the Boardman
Deferral.

MEMORANDUM

At the request of Administrative Law Judge (ALJ) Sarah Wallace, Portland General Electric Company (PGE) has agreed to remove the confidential designation from the following pages contained in the record of these proceedings:

- PGE/105C-B, Quennoz/41
- PGE/105C-C, Quennoz/35
- PGE/105C-A, Quennoz/6-7
- Tr. at 48-49, 231, 233, 240-241, 246, 250
- ICNU/312 at 4

In agreeing to remove the confidential designation of those pages, PGE also reported two errors in the transcript. First, on page 240, line 10, PGE believes the words "fine limited" should read "finite element." Second, on page 246, line 23, PGE believes the phrase "Unknown operational VIN" should read "Unknown operational condition." A copy of the e-mail exchange between ALJ Wallace and Doug Tingey, PGE's counsel, is attached.

Any party may object to PGE's proposed corrections to the transcript within seven days of this memorandum. If no objections are received, the transcript will be corrected as identified by PGE.

Dated this 20th day of October, 2009, at Salem, Oregon.

Michael Grant
Chief Administrative Law Judge

Subject: RE: UE 196

Judges:

Sorry this has taken a little while.

In response to your request below, PGE is willing to remove the confidential designation for the identified pages. We have notified Siemens and Alstom of your request to remove the designation from pages from their respective reports, and they have also consented to removing the confidential designation for those specific pages.

In reviewing the identified transcript pages we have identified two transcription errors:

1. On page 240, line 10, the words "fine limited" should read "finite element".
2. On page 246, line 23, the phrase "Unknown operational VIN" should read "Unknown operational condition".

If you need anything else, please let me know.

Doug Tingey

Subject: UE 196

Hi Doug. Because so much information was designated as confidential in UE 196, PGE and the other parties agreed that I could contact PGE to request that the designation be removed for some information if I needed to use it in the final order. Is PGE willing to remove the confidential designation from the following pages:

- PGE/105C-B, Quennoz/41
- PGE/105C-C, Quennoz/35
- PGE/105C-A, Quennoz/6- 7
- Tr. at 48-49, 231, 233, 240-241, 246, 250
- ICNU/312 at 4

If PGE is unwilling to remove the confidential information, please explain why the information is confidential.

Thank you,

Sarah
