In the Matter of

PACIFICORP, dba PACIFIC POWER

Request for a General Rate Revision.

RULING

DISPOSITION: PETITION TO INTERVENE GRANTED

On June 10, 2010, the Community Action Partnership of Oregon (CAPO) filed a petition to intervene in this proceeding. The period to contest the petition has passed and no objections were filed. I find that CAPO has sufficient interest in the proceeding to participate and that its appearance and participation will not unreasonably broaden the issues, burden the record, or unreasonably delay the proceeding. See OAR 860-012-0001. The petition to intervene is granted. Given the late date of the petition to intervene and the advanced state of settlement discussions, however, any new intervenor's opportunity for participation may be limited.

Dated this 22nd day of June, 2010, at Salem, Oregon.

Lisa D. Hardie
