DISPOSITION: SCHEDULE ADOPTED

On March 4, 2008, PacifiCorp, dba Pacific Power (Pacific Power), filed a request to open the above-captioned docket. Pacific Power did not file a draft request for proposals (RFP) until April 28, 2008. In the interim, two prehearing conferences were scheduled and cancelled. The Citizens' Utility Board of Oregon (CUB) also filed a notice of intervention and the petitions to intervene of the Industrial Customers of Northwest Utilities (ICNU) and the Renewable Northwest Project (RNP) were granted.

On May 9, 2008, Pacific Power filed a letter representing that Pacific Power, Staff, CUB, ICNU and RNP had agreed to a proposed schedule in this proceeding. Pacific Power requested that I adopt this schedule in lieu of holding a prehearing conference.

I adopt the following procedural schedule:

Opening Comments on Draft RFP due	June 12, 2008
Pacific Power files Final Draft RFP and Response Comments	June 19, 2008
Independent Evaluator (IE) files Report on Final Draft RFP	July 3, 2008
Comments on Final Draft RFP due	July 18, 2008
Special Public Meeting	TBD

The due date for opening comments is based upon an agreement that data requests will be answered within five business days. Pacific Power indicates it would be appropriate to schedule the Special Public Meeting approximately two weeks after comments on the Final Draft RFP are submitted.

In recognition that a prehearing conference was not held, this ruling shall be served upon a general service list to provide widespread notice of the schedule in this proceeding. Petitions to intervene will still be accepted.

Dated this 9th day of May, 2008, at Salem, Oregon.

Traci A. G. Kirkpatrick
Administrative Law Judge
