On January 22, 2019, the Commission issued orders completing Phase II of the resource value of solar (RVOS) proceeding and adopting final methodologies that PacifiCorp, dba Pacific Power, Idaho Power Company, and Portland General Electric Company will use to produce their initial sets of RVOS values. As directed in the orders, the companies filed revised RVOS calculations on March 18, 2019 and July 18, 2019 in their respective dockets. Staff conducted a workshop on September 19, 2019 to review and gather input on the compliance filings. At the October 29, 2019 special public meeting in docket UM 1930, the Commission requested an informational update on the status of the RVOS proceedings.

Accordingly, I request that Staff provide a presentation at the December 3, 2019 public meeting summarizing the compliance filings, addressing the status of the compliance filings, and outlining any next steps.

Dated this 31st day of October, 2019 at Salem, Oregon.
