Subject:	AR 641 DIVISION 001 RULE UPDATES--Next workshop and redlines of proposed rule changes
Date:	Wednesday, March 24, 2021 3:36:00 PM

March 24, 2021

Good afternoon everyone,

Thank you for participating in our last workshop. Given what is looking like a tightly-packed April, we've had to reserve our next workshop date without checking in with you all, which I regret but is unavoidable. Accordingly, our **next workshop** is scheduled for **Friday, April 9th at 9:30 am.**

As we discussed during the last workshop, we're ready to solicit redlines to the rules regarding confidentiality we've been discussing.

You are invited to provide **redlines** to the following rules any time prior to close of business **April 6th**.

- Discovery in Contested Case Proceedings 860-001-0500
- Data Requests 860-001-0540
- General Rate Revision 860-022-0019 (Because of reference to standard data requests only)
- Any other rule sections we reviewed and discussed at the last meeting, including those regarding protective orders.

We'll be starting by developing and sending out redlines on the following rules by close of business on **March 30th**. You're welcome to provide your suggested changes to our redlines of these rules any time prior to close of business April 6th.

- Confidential Information 860-001-0070
- Filing Requirements in Contested Case and Declaratory Ruling Proceedings 860-001-0170 (consideration of confidential information filings only)

We will send out workshop participation details next week.

Thank you, and please let me know if you have any questions.
