Subject: RE: Docket Number UM 1182--Notice of Filing--Oregon PUC

The purpose of Monday's status conference is to discuss the status of this case, particularly in light of recent data requests and the recent request for a protective order. Please be prepared to discuss whether data requests are appropriate at this stage of the docket and in a generic docket generally.

It would be helpful if the parties who have served data requests could send a copy of those requests (by e-mail is sufficient) to me by the close of business tomorrow. Requests only please – I do not want copies of any responses.

Thank you,
Sarah Wallace
Administrative Law Judge
