WORKSHOP ANNOUNCEMENT

As provided in the June 21, 2022, announcement from PGE regarding its workshop on Friday, July 15, 2022, to evaluate the Public Utility Commission’s Recommendations for potential consideration in PGE’s 2023 WMP, this announcement provides more detail about the workshop.

As per Commission Order 22-132 in Docket UM 2208, which approved Portland General Electric’s (PGE) 2022 Wildfire Mitigation Plan (WMP), PGE will be hosting on Friday, July 15, 2022, a recommendation review workshop. The workshop will be conducted virtually from 9:00AM to Noon, and participants can join the workshop via the Teams link provided below. Attendees will want to be aware of the following protocol for participation in the workshop:

- Participants will be ‘muted’ by default in the Teams instance
- PGE will be presenting a ‘slideshow’ to guide the workshop discussion
- The bulk of the workshop will entail a give-and-take between PGE representatives and OPUC Staff on the recommendations
- Public attendees are encouraged to submit questions in the Teams ‘chat’ feature – PGE will be monitoring the chat and will seek to address as many of the questions as possible during the workshop
 - Two-minute opportunities after each Recommendation review will be available to address some questions
 - A more general “Q&A” section of the workshop will be positioned toward the end

PGE looks forward to the opportunity to review Staff’s Recommendations in the workshop.
