## **Workshop Announcement**

*AR 638 Rulemaking for Risk-based Wildfire Protection Plans and Planned Activities*

The Oregon Public Utility Commission (PUC) is hosting the first of several workshops to develop rules to address risk-based wildfire mitigation plans for investor-owned utilities ([Docket No. AR 638](#)) on Thursday, December 10, 2020, from 9:30 a.m. to 12 p.m.

The intent of this first workshop is to:

- Begin building the community of partners
- Review the origins and purpose of this effort
- Familiarize participants with the PUC and what it means to participate in a rulemaking process
- Conduct a scoping exercise(s) to begin to cataloguing issues and understanding priorities and the urgency of the issues
- Share PUC Staff's rulemaking strategy for feedback and questions

The workshop will be followed by the release of a written survey. The purpose of the survey is to learn more about our rulemaking participants' objectives, priorities, ideas, uncertainties, and questions on the topic of wildfire mitigation and planning for Oregon's investor-owned utilities.

These workshops will be held virtually using Zoom. Details of the agenda and Zoom participation will be distributed approximately one week before the schedule workshop.

If you have questions on the process or content of this workshop series, contact:
