

**BEFORE THE PUBLIC UTILITY COMMISSION
OF OREGON**

LC 66

In the Matter of

PORTLAND GENERAL ELECTRIC
COMPANY,

2016 Integrated Resource Plan.

NOTICE

This notice provides a description of the process the Commission intends to use at the December 13, 2017 Special Public Meeting as it begins to address Portland General Electric Company's revised renewable action plan. Subject to changes based on how the discussions proceed, the Commission intends to divide the discussion into two stages.

First, the Commission will seek input from the parties, through both summary presentations and Commissioner questioning. Staff will begin by providing a brief summary of its recommendations; PGE will follow. Both parties should limit opening remarks to 10 minutes, with the understanding that the Commissioners may extend this time with questioning.

The parties that have filed formal comments in this docket will then be asked to summarize their comments, with the goal of five minutes per party, subject to extension for Commissioner questions. Finally, subject to available time, members of the public may briefly make comments, aiming for two minutes each.

Following the initial stage, the Commissioners will shift to deliberations. During its deliberations, the Commission may have more targeted questioning of Staff, PGE, and the intervenors, but may primarily be conducting a work session during which the Commissioners will be discussing the items amongst themselves.

The Commissioners will take breaks as necessary, and may continue its deliberations at the Special Public Meeting scheduled for January 4, 2018.

Dated this 8th day of December, 2017 at Salem, Oregon.

Lisa D. Hardie
