

**BEFORE THE PUBLIC UTILITY COMMISSION  
OF OREGON**

UE 390

In the Matter of

PACIFICORP, dba PACIFIC POWER,  
2022 Transition Adjustment Mechanism.

NOTICE

Notice is given that the Commission will hold a workshop on February 24, 2022, to discuss issues raised in PacifiCorp, dba Pacific Power's 2021 Integrated Resource Plan (IRP) proceeding. Notice is posted in this docket out of an abundance of caution to avoid *ex parte* concerns, as it is possible that issues related to the Transition Adjustment Mechanism (TAM) such as the Jim Bridger Long-Term Fuel Plan may be raised in the LC 77 workshop.

The Commission will discuss coal fueling issues in an Executive Session under ORS 192.660(2)(f). Executive Sessions are used to consider information that is exempt from public disclosure, and parties must sign protective Order Nos. 21-271 and 21-399 in LC 77 to attend. Parties to UE 390 wanting to participate in the LC 77 Executive Session may submit signatory pages for the protective orders in LC 77 by February 23, 2022, and will receive an emailed invite link to the meeting.

Further details including an agenda and a bench request on coal issues are posted in LC 77 eDockets. If you have questions, please contact Candice Menza at [candice.menza@puc.oregon.gov](mailto:candice.menza@puc.oregon.gov).
