

Workshop Rescheduling

June 10, 2021

Docket No. UM 2165 – Transportation Electrification Investment Framework

In recognition of the Juneteenth holiday, which has some municipalities closed, we will be rescheduling the June 18 workshop. Juneteenth is a very important milestone in American history. We look forward to the spirit of Juneteenth permeating the workshop series.

Staff will post the new workshop date as soon as possible. We will continue to hold the next workshop on cost/benefit methodologies on Wednesday, June 30 from 9-11 am, as shown:
