Subject: OPUC - Idaho Power's 2021 IRP Report - (LC 74 until 2021 IRP is filed)
Date: Monday, December 27, 2021 4:59:56 PM

Hi Jared,

We appreciate that Idaho Power is sharing its 2021 IRP Draft for review prior to filing before the end of the year. The IRP guidelines require that utilities provide a draft IRP for public review and comment prior to filing a final plan with the Commission (Order No. 07-002). Staff sees value in providing the public with sufficient time to review and provide comments on Draft IRPs, such that the filed IRP might reflect said comments.

In the past Staff has been able to provide feedback that it believes improved the quality of the filings, albeit, with a relatively short time for review (five business days last time, I believe). However, providing four business days for review over the holidays, during which time many staff take additional time off, does not provide sufficient time for staff to plan for and conduct this review. As such, OPUC will not be providing informal comments on Idaho Power's Draft IRP prior to an end of the year filing.

It is unfortunate that we, and we imagine others of the public, won't have a meaningful review and comment opportunity for the 2021 IRP. Staff raised this same issue in PacifiCorp's IRP LC 77 (see page 46 of [Staff's Opening Comments](#)), and we'll likely raise this as an issue in the Idaho Power 2021 IRP as well.

Best,
Kim
