

**OREGON PUBLIC UTILITY COMMISSION  
INTEROFFICE CORRESPONDENCE**

**DATE:** May 30, 2024

**THROUGH:** Bryan Conway and Anna Kim

**FROM:** David Abraham

**SUBJECT: Verification of Idaho Power Company (Idaho Power, Company)  
UE 425 – Compliance Filing Advice No. 24-03.**

**EFFECTIVE DATE:** June 1, 2024

**STAFF RECOMMENDATION:**

I have reviewed this filing and recommend that an acknowledgement letter be sent.

**DISCUSSION:**

In Order No. 24-151(Order) in Docket No. UE 425 (entered May 21, 2024), the Public Utility Commission of Oregon (Commission or OPUC) adopted the revenue requirement and rate spread/rate design elements contained in the stipulation. In response to that Order, Idaho Power submitted its Compliance Filing Advice No. 24-03 on May 22, 2024, for rates effective June 1, 2024.

Idaho Power's Compliance Filing included the following:

- Replacement sheets for affected Schedules.
- Excel work papers in electronic format provided on March 25, 2024.

Based upon analyses performed by Staff, I can affirm the accuracy of the Company's filed tariff rates, effective June 1, 2024.

Staff found no substantive errors in the tariff pages and finds these in compliance with Commission Order No. 24-151.
