_____)

**OPENING TESTIMONY OF
RANDALL J. FALKENBERG
ON BEHALF OF
THE INDUSTRIAL CUSTOMERS OF NORTHWEST UTILITIES**

October 27, 2009

1 **Q. PLEASE STATE YOUR NAME AND BUSINESS ADDRESS.**

2 **A.** Randall J. Falkenberg, PMB 362, 8351 Roswell Road, Sandy Springs, Georgia
3 30350.

4 **Q. WHAT IS YOUR OCCUPATION AND BY WHOM ARE YOU**
5 **EMPLOYED?**

6 **A.** I am a utility rate and planning consultant holding the position of President and
7 Principal with the firm of RFI Consulting, Inc. (“RFI”). I am appearing in this
8 proceeding as a witness for the Industrial Customers of Northwest Utilities
9 (“ICNU”).

10 **Q. PLEASE BRIEFLY DESCRIBE THE NATURE OF THE CONSULTING**
11 **SERVICES PROVIDED BY RFI.**

12 **A.** RFI provides consulting services in the electric utility industry. The firm provides
13 expertise in electric restructuring, system planning, load forecasting, financial
14 analysis, cost of service, revenue requirements, rate design, and fuel cost recovery
15 issues.

16 **Q. PLEASE SUMMARIZE YOUR QUALIFICATIONS AND**
17 **APPEARANCES.**

18 **A.** My qualifications and appearances are provided in Exhibit ICNU/101. I have
19 participated in and filed testimony in numerous cases involving Portland General
20 Electric (“PGE” or the “Company”) and PacifiCorp issues over the past ten years.

21 **Q. WHAT IS THE PURPOSE OF THIS TESTIMONY?**

22 **A.** I am presenting ICNU’s positions regarding the issues in this case.

23 **Q. ARE YOU SPONSORING ALTERNATIVE AVOIDED COST RATES FOR**
24 **PGE IN THIS CASE?**

25 **A.** No. ICNU had requested that the issue of methodologies for computing avoided
26 costs be considered in this proceeding. However, in the September 17, 2009

1 Prehearing Conference Memorandum, Judge Grant directed that issues
2 concerning methodologies not be examined in this proceeding. The issues in this
3 case are very narrow and include only whether PGE's filing is consistent with the
4 Commission's avoided cost methodology approved in Order No. 05-584. As a
5 result, ICNU believes the scope of issues does not permit a full investigation into
6 the accuracy of the avoided cost rate filed by PGE. Consequently, I am not
7 sponsoring an alternative avoided cost rate for PGE nor have I reviewed the
8 accuracy or reasonableness of PGE's avoided cost rate inputs.

9 **Q. DOES THIS IMPLY THAT ICNU AGREES THAT THE AVOIDED COST**
10 **RATES REQUESTED BY PGE IN THIS CASE ARE ACCURATE?**

11 **A.** No. ICNU continues to believe that the methodology used in computing the
12 avoided cost rates is inaccurate and results in less than full avoided costs, as
13 required by the Oregon and federal Public Utility Regulatory Policies Acts. The
14 current methodology does not result in PGE's avoided cost rates reflecting the
15 Company's actual incremental costs that, but for the purchase of power from
16 qualifying facilities, PGE would generate or purchase from another source. The
17 discrepancy between PGE's actual avoided costs and the avoided cost rates is
18 even larger during the period of low natural gas prices. In UM 1396, I proposed
19 an alternative resource sufficiency/deficiency methodology for computation of
20 avoided costs, which, if adopted, would more accurately set avoided cost rates.
21 ICNU was also considering sponsoring an alternative avoided cost methodology
22 in this proceeding. ICNU remains quite concerned about the fact that PGE
23 continues to acquire new capacity and energy resources, but continues to base its
24 short-term avoided costs on costs less the full per unit cost of these new resources.

1 **Q. DOES THIS CONCLUDE YOUR TESTIMONY?**

2 **A.** Yes.

**BEFORE THE PUBLIC UTILITY COMMISSION

ICNU/101

**QUALIFICATIONS OF
RANDALL J. FALKENBERG**

October 27, 2009

QUALIFICATIONS OF RANDALL J. FALKENBERG, PRESIDENT

EDUCATIONAL BACKGROUND

I received my Bachelor of Science degree with Honors in Physics and a minor in mathematics from Indiana University. I received a Master of Science degree in Physics from the University of Minnesota. My thesis research was in nuclear theory. At Minnesota I also did graduate work in engineering economics and econometrics. I have completed advanced study in power system reliability analysis.

PROFESSIONAL EXPERIENCE

After graduating from the University of Minnesota in 1977, I was employed by Minnesota Power as a Rate Engineer. I designed and coordinated the Company's first load research program. I also performed load studies used in cost-of-service studies and assisted in rate design activities.

In 1978, I accepted the position of Research Analyst in the Marketing and Rates department of Puget Sound Power and Light Company. In that position, I prepared the two-year sales and revenue forecasts used in the Company's budgeting activities and developed methods to perform both near- and long-term load forecasting studies.

In 1979, I accepted the position of Consultant in the Utility Rate Department of Ebasco Service Inc. In 1980, I was promoted to Senior Consultant in the Energy Management Services Department. At Ebasco I performed and assisted in numerous studies in the areas of cost of service, load research, and utility planning. In particular, I was involved in studies concerning analysis of excess capacity, evaluation of the planning activities of a major utility on behalf of its public service commission, development of a methodology for computing avoided costs and cogeneration rates, long-term electricity price forecasts, and cost allocation studies.

At Ebasco, I specialized in the development of computer models used to simulate utility production costs, system reliability, and load patterns. I was the principal author of production costing software used by eighteen utility clients and public service commissions for evaluation of marginal costs, avoided costs and production costing analysis. I assisted over a dozen utilities in the performance of marginal and avoided cost studies related to the PURPA of 1978. In this capacity, I worked with utility planners and rate specialists in quantifying the rate and cost impact of generation expansion alternatives. This activity included estimating carrying costs, O&M expenses, and capital cost estimates for future generation.

In 1982 I accepted the position of Senior Consultant with Energy Management Associates, Inc. and was promoted to Lead Consultant in June 1983. At EMA I trained and consulted with planners and financial analysts at several utilities in applications of the PROMOD and PROSCREEN planning models. I assisted planners in applications of these models to the preparation of studies evaluating the revenue requirements and financial impact of generation expansion alternatives, alternate load growth patterns and alternate regulatory treatments of new baseload generation. I also assisted in EMA's educational seminars where utility personnel were trained in aspects of production cost modeling and other modern techniques of generation planning.

I became a Principal in Kennedy and Associates in 1984. Since then I have performed numerous economic studies and analyses of the expansion plans of several utilities. I have testified on several occasions regarding plant cancellation, power system reliability, phase-in of new generating plants, and the proper rate treatment of

QUALIFICATIONS OF RANDALL J. FALKENBERG, PRESIDENT

new generating capacity. In addition, I have been involved in many projects over the past several years concerning the modeling of market prices in various regional power markets.

In January 2000, I founded RFI Consulting, Inc. whose practice is comparable to that of my former firm, J. Kennedy and Associates, Inc.

The testimony that I present is based on widely accepted industry standard techniques and methodologies, and unless otherwise noted relies upon information obtained in discovery or other publicly available information sources of the type frequently cited and relied upon by electric utility industry experts. All of the analyses that I perform are consistent with my education, training and experience in the utility industry. Should the source of any information presented in my testimony be unclear to the reader, it will be provided it upon request by calling me at 770-379-0505.

PAPERS AND PRESENTATIONS

Mid-America Regulatory Commissioners Conference - June 1984: "Nuclear Plant Rate Shock - Is Phase-In the Answer"

Electric Consumers Resource Council - Annual Seminar, September 1986: "Rate Shock, Excess Capacity and Phase-in"

The Metallurgical Society - Annual Convention, February 1987: "The Impact of Electric Pricing Trends on the Aluminum Industry"

Public Utilities Fortnightly - "Future Electricity Supply Adequacy: The Sky Is Not Falling" What Others Think, January 5, 1989 Issue

Public Utilities Fortnightly - "PoolCo and Market Dominance", December 1995 Issue
