RE: Advice No. 2024-001-PL(A) for Qwest Corporation d/b/a CenturyLink QC Private Line Price List

Dear Commissioners:

Attached for electronic filing are revisions to the Qwest Corporation d/b/a CenturyLink QC Private Line Price List, submitted with a proposed effective date of September 1, 2024. Attachment A includes a list of pages.

Effective September 1, 2024, CenturyLink plans to grandfather Intrastate Private Line DS-1 and DS-3 services. New contracts or renewal of existing contracts will no longer be accepted for these services, effective immediately. Customers will be able to retain their existing services under CenturyLink's grandfathering plan, subject to the terms described below.

Effective September 1, 2024:

- New orders and moves will be allowed only to the extent permitted by the existing contract.
- Existing contracts for these services will not be renewed.
- Customers with a contract may retain their Intrastate Private Line circuit on a month-to-month basis once that contract expires.
- Circuits billing month-to-month will not be allowed to move, add, or change circuits, only disconnect.

If you have any questions regarding this filing, please contact me at the contact information below.

Sincerely,

A handwritten signature in cursive script that reads "Robyn Crichton".

Robyn Crichton

cc: Ms. Peter Gose

5.2 SERVICE DESCRIPTIONS (Cont'd)

5.2.7 DS1 SERVICE – GRANDFATHERED

(C)

Effective September 1, 2024, Private Line DS-1 and DS-3 Services are grandfathered. New contracts or renewal of existing contracts will no longer be accepted for these services, effective immediately. Existing services are limited to circuits in service at existing locations. Customers with a contract may retain their Intrastate Private Line circuit on a month-to-month basis once the contract expires.

(N)

(N)

A. Description

DS1 Service provides for the two-way transmission of 1.544 Mbps digital signals, on a point-to-point basis only. DS1 Service can be provisioned on copper, fiber, or other suitable facilities, at the discretion of the Company. DS1 Service may be used for the transmission of voice, data, and video signals, or any combination thereof. DS1 Service is provided between two customer designated premises, between a customer designated premises and a Company Serving Wire Center, or between Company Serving Wire Centers.

DS1 Service may consist solely of:

- Transport Mileage between Company Serving Wire Centers connecting to other Company provided, Section 5, Private Line Transport Services,
- Central Office Multiplexing in conjunction with Transport Mileage between Company Serving Wire Centers or,
- a Central Office Multiplexer used in a cascading arrangement.

Central Office Multiplexing in conjunction with Transport Mileage may consist of connections between multiplexers of the same speed, or connections to higher speed multiplexers or channelized services.

DS1 Service may also be provided without framing. A Free-Framed DS1 signal shall have electrical characteristics identical to the framed 1.544 Mbps signals for DS1 Service with B8ZS, except for the lack of an apparent Frame Format. Free-Framing is not compatible with multiplexed DS1 Service. Free-Framed DS1 can only be provided where suitable equipment is available.

Information pertaining to the technical specifications and compatible channel interfaces is set forth in the Technical Publications listed under 1.9, the Reference to Technical Publications, preceding. All Frame Format and line code combinations found in the Technical Publication are available for DS1 Service provisioned as point-to-point, or as Central Office multiplexed service.

B. Terms and Conditions

The terms and conditions specified in the DS1 Service Agreement, apply, in addition to the conditions set forth here and in Section 2, preceding.

1. Availability

- DS1 Service is available only on a two-point basis, 24 hours per day, 7 days a week.
- DS1 Service can only be provided from wire centers equipped for digital transmission and is subject to the technical limitations of the CO equipment used by the Company.
- Where suitable facilities are unavailable for provision of the service, special construction of the facilities may be necessary and will be charged for as specified in 4.1.6, preceding.
- If a customer requests that DS1 service be provided on fiber facilities, special construction charges as specified in 4.1.6, preceding, may apply.
- A customer may request that the facilities used to provide DS1 Service be specially routed. The regulations, rates and charges for Facilities Protection - Special Facilities Routing (i.e., Avoidance and Diversity) are as set forth in 4.4.1, preceding.

(C)

B. Terms and Conditions (Cont'd)

2. Credit Allowance for Service Interruptions

Credit allowance terms and conditions are specified in 2.4.3, preceding.

3. Payment Options

DS1 Service is offered on a month-to-month basis and on one through five year Fixed Period Rate Plans, as specified in G.4., following.

4. Route Discounts

Route discounts are available for customers who purchase multiple, identical DS1 circuits between the same two customer designated premises (i.e., circuits must terminate at the same addresses). Route discounts are applicable only on the Channel Termination and Transport Mileage rate elements. The charges, as specified in 5.3.6, following, include the route discounts.

5. Service Guarantee

Service Guarantee - Repair, as specified in 2.4.3.B., preceding, does not apply for Free-Framed DS1 Service.

(C)

C. End-Link or Mid-Link Application

This application is intended for customers requiring Private Line Transport as part of an overall circuit, extending beyond the LATA. A mechanized Design Layout Report (DLR) is provided to the customer to assist in their overall design. The network channel interface between the Company facility and the remainder of the overall circuit is referred to as the Mid User-POT (Point of Termination). The network channel interface that is at the terminating end of the overall circuit is referred to as the End User-POT.

D. End-to-End Application

This application is intended for customers requiring an overall Private Line Transport by the Company within the LATA. No Design Layout Report will be provided since the performance and maintenance will be the responsibility of the Company. The network channel interface at the terminating end of the overall circuit is referred to as the End User-POT.

5.2.7 DS1 SERVICE – GRANDFATHERED (Cont'd)

(C)

E. Rate Categories

There are three basic charge categories which apply to DS1 Service:

- Channel Termination
- Transport Mileage
- Optional Features and Functions

1. Channel Termination

The Channel Termination provides for the communications path between the Demarcation Point at the customer designated premises, and the Serving Wire Center of that premises. One Channel Termination charge applies per DS1 terminated at the Demarcation Point. This charge will apply even if the customer designated premises and the Serving Wire Center are collocated in the same building.

If a customer provides the channel facility assignment (CFA) for the multiplexer of a higher capacity service, the DS1 Channel Termination charge does not apply between the Serving Wire Center and the customer's designated premises, connected by the higher capacity service.

For example, if an end-user wants to connect to an Interexchange Carrier's (IC) point of presence (POP), and the IC provides CFA, the DS1 Channel Termination connecting the Serving Wire Center to the IC POP is not billed because the IC is already paying for that connection, via the higher capacity service. If the IC does not provide CFA, then the Company must provide the connection from the Serving Wire Center to the IC POP and the DS1 Channel Termination applies.

5. SERVICES

5.2 SERVICE DESCRIPTIONS

5.2.7 DS1 SERVICE – GRANDFATHERED

(C)

E. Rate Categories (Cont'd)

2. Transport Mileage

The Transport Mileage provides for the transmission facilities between the Serving Wire Centers associated with two customer designated locations, or for the transmission facilities between serving wire centers, utilized to provide connection between two Company provided Section 5, Private Line Transport Services, located in different Company Serving Wire Centers or between Company provided Central Office Multiplexers located in different Company Serving Wire Centers. Transport Mileage is portrayed in mileage bands. There are two elements that apply for each band i.e., a fixed band and a per mile band. Transport Mileage is measured by airline miles between Serving Wire Centers via the V and H Coordinates Method, as set forth in the National Exchange Carrier Association Tariff F.C.C. No. 4.

3. Optional Features and Functions

Optional features and functions are available where determined by the Company to be technically feasible.

a. Central Office Multiplexing

(1) DS1 to Voice/Data

An arrangement that provides a Company multiplexer, in a Company central office, which converts a 1.544 Mbps channel to 24 64 kbps channels. The 24 channels may be used for the provision of Private Line Transport Voice or Data applications. This option is provided with the following network channel interfaces:

- SuperFrame format with AMI line code
- SuperFrame format with B8ZS line code
- Extended SuperFrame format with AMI line code
- Extended SuperFrame format with B8ZS line code
- ANSI Extended SuperFrame format with AMI line code
- ANSI Extended SuperFrame format with B8ZS line code

5.2.7 DS1 SERVICE – GRANDFATHERED

(C)

E. Rate Categories

3. Optional Features and Functions

a. Central Office Multiplexing (Cont'd)

(2) DS1 to DS0

An arrangement that converts a 1.544 Mbps DS1 channel to 24 64 kbps DS0 channels utilizing time division multiplexing. The 24 channels are used for Digital Data Services. This option is provided with the following network channel interfaces:

- SuperFrame format with AMI line code
- SuperFrame format with B8ZS line code
- Extended SuperFrame format with AMI line code
- Extended SuperFrame format with B8ZS line code
- ANSI Extended SuperFrame with AMI line code
- ANSI Extended SuperFrame with B8ZS line code

b. Central Office Multiplexer to Multiplexer Connecting Arrangement

This arrangement allows a customer to connect an individual DS1 channel of one Company-provided multiplexer to an individual DS1 channel of another Company-provided multiplexer. This feature is offered when both multiplexers are located in the same serving wire center, and when the multiplexers are located in different serving wire centers. This feature may be optioned for the Bipolar with Eight Zero Substitution (B8ZS) line code.

When a Central Office Multiplexer to Multiplexer Connecting Arrangement is made within the same serving wire center, only one arrangement will apply. When a Central Office Multiplexer to Multiplexer Connecting Arrangement is made in different serving wire centers, one arrangement will apply for each serving wire center. Transport Mileage, if applicable, will also apply. For example, a customer who wants to connect one 1.544 Mbps channel on a DS3 to DS1 Multiplexer from serving wire center A to a DS3 to DS1 Multiplexer in serving wire center B, would pay for two Central Office Multiplexer to Multiplexer Connecting Arrangements and Transport Mileage as set forth in 5.3.6, following.

E. Rate Categories

3. Optional Features and Functions (Cont'd)

c. Clear Channel Capability

An arrangement that allows a customer to transport any framed sequence of binary ones and zeroes through a 1.544 Mbps channel.

(1) B8ZS Option

This option requires the customer signal at the channel interface to conform to the Bipolar with Eight Zero Substitution (B8ZS) line code algorithm. This option allows B8ZS line code transmission through the network without being transcoded.

d. Central Office Connecting Channel

The Central Office Connecting Channel provides for connections within the same Hub wire center between one customer leased DS1 Channel and a different customer leased DS1 Channel provided by the Company (e.g., two like services installed as two separate services). One Central Office Connecting Channel charge applies per connection made.

e. Command A Link

This option allows the customer to control the reconfiguration of a Private Line Transport Service (digital or analog) on a near real-time basis, by means of the special provisioning of these services through a digital cross-connect device. Command A Link can accommodate the termination of circuits up to the 64 kbps[1], 1.544 Mbps[2], and 44.736 Mbps[3] signal levels. Customer access to the reconfiguration capability is on the basis of a dial access arrangement. Terms and conditions, and charges for Command A Link are specified in 4.6, preceding.

Command A Link is available only in selected serving wire centers.

[1] Applicable to Voice Grade and Digital Data Service.

G. Rate Conditions

This section contains specific terms and conditions governing the rates and charges for DS1 Service. The monthly rates and nonrecurring charges described as follows.

1. Monthly Rates

Monthly rates are flat rates that apply each month or fraction thereof that service is provided. These rates apply on a monthly basis. For billing purposes, each month is considered to have 30 days.

2. Nonrecurring Charges

Nonrecurring charges are one-time charges that apply for a specific work activity (i.e., installation or change to an existing service). The types of nonrecurring charges that apply for DS1 Service are: Channel Termination Initial and Subsequent, Transport Mileage, installation of Optional Features and Functions, and Service Rearrangements. Special construction charges as defined in 4.1.6, preceding, may also apply. Customers who order service under a Custom Arrangement, as defined in 3.2.3, preceding, may incur Special Construction Charges.

a. Channel Termination - Initial and Subsequent

An Initial or Subsequent nonrecurring charge applies for the installation of each Channel Termination and includes its predefined technical specifications and the facilities from the customer designated premises to the Serving Wire Center.

The Initial nonrecurring charge applies for work to be performed on one Channel Termination, at a customer designated premises. The initial nonrecurring charge applies for new installation of a Channel Termination or for work to be performed on an existing Channel Termination.

1st Revised Sheet 59
Cancels Original Sheet 59

5. SERVICES

5.2 SERVICE DESCRIPTIONS

5.2.7 DS1 SERVICE – GRANDFATHERED

(C)

G. Rate Conditions

2. Nonrecurring Charges

a. Channel Termination - Initial and Subsequent (Cont'd)

The Subsequent nonrecurring charge applies per Channel Termination, at one customer designated premises, when;

- At the same time as the initial Channel Termination is requested, a customer orders additional Channel Termination(s), due the same date, for the same type of service and exact NC/NCI combinations, at the same location.
- At the same time as a request for additional work on an existing Channel Termination, a customer requests the same additional work to be performed on identical existing Channel Termination(s), due the same date, for the same type of service and exact NC/NCI combinations, at the same location.

b. Transport Mileage

A nonrecurring charge applies for the installation of Transport Mileage which provides the transmission facilities between wire centers. This charge applies only when Transport Mileage is installed without a Channel Termination.

c. Installation of Optional Features and Functions

Nonrecurring charges apply for the installation of some of the optional features and functions available with DS1 Service. The charge applies whether the feature or function is installed coincident with the initial installation of service or at any time subsequent to the installation of the service, unless otherwise specified.

d. Service Rearrangements

Service rearrangements are changes to existing (installed) services which do not result in either a change in the minimum billing period requirements or a change in the physical location of the Channel Termination at a customer designated premises. The charge to the customer for the service rearrangement is dependent on whether the change is administrative only in nature or involves actual physical change to the service. Changes which result in the establishment of new minimum billing period obligations are treated as disconnects and new connects. Changes in the physical location of the Channel Termination are treated as moves and are described in e., following.

- If the change involves the addition of an optional feature or function which has a separate nonrecurring charge, that nonrecurring charge will apply.

(C)

G. Rate Conditions

2. Nonrecurring Charges

d. Service Rearrangements (Cont'd)

- If the change involves reterminating an existing DS1 Channel Termination onto a spare channel of a higher capacity service, the Rollover nonrecurring charge, as specified in 3.2.2.M., preceding, will apply.
- If the change involves changing Frame Format or Line Code, (e.g., AMI to B8ZS line code, SuperFrame to ANSI Extended Superframe, or any frame format to Free-Frame, or vice versa), or if the customer wishes to add Clear Channel Capability to an existing DS1 Service, a Service Rearrangement nonrecurring charge will apply.

NONRECURRING CHARGE

Service Rearrangement, per
Channel Termination

\$140.00

- For all other changes, including the addition of optional features without separate nonrecurring charges (except for Clear Channel Capability), a charge equal to a Channel Termination nonrecurring charge will apply. Only one such charge will apply per service, per change.

e. Moves

A move involves a change in the physical location of one of the following:

- The Point of Termination at the customer's designated premises
- The customer's premises

The charges for the move are dependent on whether the move is to a new location within the same building or to a different building.

(1) Moves Within the Same Building or Between Buildings on the Same Premises

When the move is to a new location within the same premises or between buildings on the same premises, the move is the responsibility of the customer. There will be no change in the minimum billing period requirements.

5.2.7 DS1 SERVICE – GRANDFATHERED

(C)

- G. Rate Conditions
 - 2. Nonrecurring Charges
 - e. Moves (Cont'd)

(2) Moves to a Different Building

A customer who has existing service may choose to move either a portion of or the entire existing service without incurring discontinuance charges provided the following conditions are met:

- Both the existing and the new services are provided solely by the Company,
- The customer's request for both the disconnect order for the existing service and the new connect order for the new service are received at the same time.
- The customer's request for the disconnect order for the existing service must reference the new connect order,
- The new service installation must be completed within thirty calendar days of the disconnection of the old service, unless the installation delay is caused by the Company,
- If the customer's service is under a Fixed Period Rate Plan, an amendment to the existing agreement must be completed. The original expiration date of the agreement is not affected, unless the customer wishes to extend the term of the agreement.

The monthly charges for the new service will be those charges in effect at the time the new service is installed. All nonrecurring charges apply for the new service. Should changes to either the disconnect order or the new connect order exclude one or more of the conditions above, applicable discontinuance and/or cancellation charges will be assessed, as specified in 2.4.5, preceding.

(C)

G. Rate Conditions

2. Nonrecurring Charges (Cont'd)

f. Reestablishment of Service Following Fire, Flood or Other Occurrence

(1) Nonrecurring Charges do not Apply

Charges do not apply for the reestablishment of service following a fire, flood or other occurrence attributed to an Act of God provided that:

- The service is of the same type as was provided prior to the fire, flood or other occurrence,
- The service is for the same customer,
- The service is at the same location on the same premises,
- The reestablishment of service begins within 60 days after Company service is available. (The 60 day period may be extended a reasonable period if the renovation of the original location on the premises affected is not practical within the allotted time period.)

(2) Nonrecurring Charges Apply

Nonrecurring Charges apply for establishing service at a different location on the same premises or at a different premises pending reestablishment of service at the original location.

3. Mileage Measurement

The mileage to be used to determine the monthly charge for the Transport Mileage is calculated using the airline distance between Serving Wire Centers. The Serving Wire Center associated with a customer designated premises is the Serving Wire Center from which the customer designated premises would normally obtain dial tone.

Transport Mileage is shown in terms of mileage bands. To determine the rate to be billed, first compute the mileage using the V&H coordinates method, as set forth in the National Exchange Carrier Association Tariff F.C.C. No. 4, then find the band into which the computed mileage falls and apply the rates shown for that band. When the calculation results in a fraction of a mile, always round up to the next whole mile before determining the mileage band and applying the rates.

5.2 SERVICE DESCRIPTIONS

5.2.7 DS1 SERVICE – GRANDFATHERED (C)

G. Rate Conditions (Cont'd)

4. Fixed Period Rate Plans – GRANDFATHERED (C)

- a. A customer may subscribe to a one-year through a five-year Fixed Period Rate Plan. The minimum billing period for the rate plan is the same as the length of the rate plan selected by the customer.
- b. For customers that subscribe to a Fixed Period Rate Plan, the monthly rates for the entire fixed period will be protected from Company-initiated increases, at the rates in effect for the fixed period on the service date.
- c. If an Optional Feature is added to a circuit that is under an existing Fixed Period Rate Plan, the feature is rated based on the length of the original Fixed Period Rate Plan.
- d. Services charged for under month-to-month billing may be upgraded to a Fixed Period Rate Plan at any time the customer chooses without incurring nonrecurring or discontinuance charges.
- e. A customer may renegotiate from an existing rate plan to a new rate plan at any time, with the condition that the new rate plan period must equal or exceed the number of months remaining in the existing rate plan.
- f. Customers with service under a Fixed Period Rate Plan that is within 6 months of expiration may extend their Fixed Period Rate Plan rates for a period of 12 months, by notifying the Company in writing of their intent to do so. The 12 month extension will begin upon expiration of the existing Fixed Period Rate Plan. Extension of an existing Fixed Period Rate Plan is available only for the original customer of record of the service.

At the end of the Fixed Period Rate Plan or of the extension (whichever is applicable), the customer must choose to:

- Renew the service under a new Fixed Period Rate Plan, – GRANDFATHERED (C)
- Continue service under the month-to-month option, or
- Discontinue the service.

If the customer renews the service, the monthly rates for a new Fixed Period Rate Plan will be the rates in effect, in the Tariff, on the renewal date. Should the customer not make a choice by the end of the existing Fixed Period Rate Plan or extension period, the rates will automatically revert to the month-to-month option.

g. Discontinuance of Service

- (1) If the customer terminates service, in whole or in part, at any time during the term of a Fixed Period Rate Plan, a termination charge may apply as specified in 2.4.5, preceding.
- (2) Discontinuance charges do not apply to Fixed Period Rate Plan services purchased by local, State or Federal government entities (or to customers that have purchased services solely for resale to local, State or Federal government entities) when they are discontinued prior to the completion of the Fixed Period Rate Plan only when all of the following conditions are met:
 - The service(s) purchased by the local, State or Federal government entity or customers that have purchased services for resale to local, State or Federal government entities are utilized solely for provision of services for that local, State or Federal government entity,
 - Funding for the service ordered by the authorized local, State or Federal government entity is included in the budget request for each fiscal period appropriation sufficient to cover the authorized local, State or Federal government entity's obligations under the Fixed Period Rate Plan for that fiscal period,

4. Fixed Period Rate Plans

g. Discontinuance of Service

(2) (Cont'd)

- Non-appropriation may not be used as a means of terminating the service to acquire a functionally similar product or service,
- The local, State or Federal government entity ordered the Fixed Period Rate Plan service under the good faith belief that moneys in amounts sufficient to discharge its obligations could and would lawfully be appropriated and be made available for this purpose and,
- The local, State or Federal government entity or the customer that ordered the service on their behalf must provide the Company notarized documents agreed upon by both the Company and the customer showing that the entity is allotted insufficient funds for the remainder of then current fiscal period (or for a succeeding fiscal period) by appropriation, appropriation limitation or grant to continue payments under the Fixed Period Rate Plan and has no other funding source lawfully available to it for such purpose. The service may be terminated by giving the Company not less than 30 days written notice. Should the customer receive funding for the cancelled service prior to physical disconnect of service, the customer may cancel the disconnect order. Upon termination, the local, State or Federal government entity or the customer that ordered the service on their behalf shall pay all applicable monthly and nonrecurring charges incurred through the date of termination and through the end of the then current fiscal period to the extent of lawfully available funds.

5. Service Conversion

- a. An existing service that is provided under a Fixed Period Rate Plan, may be converted to another service without incurring a discontinuance charge, provided all the following conditions are met:
 - Both the existing and the new services are provided solely by the Company,
 - The customer's request for the disconnect of the existing service and the new connect of the new service are received at the same time,
 - The customer's request for the disconnect of the existing service must reference the requested new connect order,
 - The new service(s) installation must be completed within thirty calendar days of the disconnection of the old service(s), unless the installation delay is caused by the Company;
 - The total value of the new service agreement(s), excluding any special construction charges and any other nonrecurring charges, is equal to or greater than 115% of the remaining value of the existing agreement(s),
 - A new minimum service period goes into effect when the new service agreement term begins,
 - The customer agrees to pay any previously billed, but unpaid recurring, and any outstanding nonrecurring charges. These charges cannot be included as part of the new service agreement,
 - All applicable nonrecurring charges will be assessed for the new contracted service(s).
- b. Should the customer choose to convert a service provided under a Fixed Period Rate Plan, and move the service to new customer locations, discontinuance charges will not apply, provided all the conditions are met as set forth in G.2.d., preceding.

6. Service Delivery Acknowledgment

The following applies to requests for DS1 Service, which are not completed by the installation due date.

When ordering DS1 Service, the customer may request to negotiate an agreement with the Company which provides written confirmation of the agreed upon due date and liquidated damages if the order is not completed by that date. In the event the Company and customer cannot agree on liquidated damages, the customer will receive a waiver of the installation charges, plus a credit of the monthly rate for each month the order is delayed past the due date. If the order requirements are changed after the Service Delivery Acknowledgement is signed, the Company reserves the right to revise the Service Delivery Acknowledgment date and liquidated damages, and establish a new date for the installation of the service.

The Company's commitment to deliver the services as scheduled excludes delays caused by the customer or third parties, strikes, labor interruptions, accidents, acts of God, fire, flood, adverse weather conditions, shortage or unavailability of material or supplies from independent suppliers, lack of transportation, governmental ordinance, law, rule, regulation or restriction, condemnation or exercise of right of eminent domain, war or civil disorder or any other circumstance beyond the Company's control.

5.3.6 DS1 SERVICE – GRANDFATHERED

(C)

Effective September 1, 2024, Private Line DS-1 and DS-3 Services are grandfathered. New contracts or renewal of existing contracts will no longer be accepted for these services, effective immediately. Existing services are limited to circuits in service at existing locations. Customers with a contract may retain their Intrastate Private Line circuit on a month-to-month basis once the contract expires.

(N)

(N)

When DS1 Service is ordered, the rates and charges apply, as shown herein. Customers are required to sign a service agreement for one-year through five-year service periods.
