RE: Advice No. 25-01A for CenturyTel of Oregon, Inc. d/b/a CenturyLink and CenturyTel of Eastern Oregon, Inc. d/b/a CenturyLink, OR PUC Price List No. 101

Dear Commissioners:

Attached for electronic filing are the following revisions to the CenturyTel of Oregon, Inc. d/b/a CenturyLink and CenturyTel of Eastern Oregon, Inc. d/b/a CenturyLink Oregon P.U.C. AC4. The following revisions are being submitted with a proposed effective date of June 15, 2025.

<u>Section</u>	<u>Page</u>
5	2nd Revised Page 95

Beginning June 15, 2025, CenturyLink will no longer provide adjusted rates for Shared Use arrangements. Shared Use, also called Ratcheting, occurs when Private Line/Business Data Services (BDS) and Switched Access are provided over the same DS1, DS3, or SST transport facility. Effective June 2025, all Shared Use arrangements will be rated as Private Line, irrespective of the type of service carried on individual channels. This change will result in an increase in billing, as rates will no longer be adjusted and will now bill month-to-month Private Line rates found in this document.

If you have any questions regarding this filing, please contact me.

Sincerely,

A handwritten signature in cursive script that reads "Robyn Crichton".

5. ORDERING OPTIONS FOR SWITCHED AND SPECIAL ACCESS SERVICE

5.2 ACCESS ORDER (Cont'd)

5.2.7 SHARED USE FACILITIES

Shared Use (i.e., Switched and Special Access Services provided over the same analog or digital high capacity facilities) is allowed. Shared use facilities to a Hub will be ordered and provided as Special Access Service. Individual services utilizing these facilities must be ordered either as Switched Access Service or Special Access Service depending on the intended use, however, the facilities may be used to provide both service types. When placing the order for the Switched Access Service or the Special Access Service, the customer must specify a channel assignment for each service ordered. **Shared use of Switched Access facilities (i.e., Private Line Access Services provided over Switched Access facilities) is not allowed.**

(C)

5.3 ACCESS ORDERS FOR SERVICES PROVIDED BY MORE THAN ONE TELEPHONE COMPANY

Access Services provided by more than one Telephone Company are services where one end of the Local Transport or Channel Mileage element is in the operating territory of one Telephone Company and the other end of the element is in the operating territory of a different Telephone Company or where the Interim NXX Translation service and the end office are not provided by the same Telephone Company.

The ordering procedure for this service is dependent upon the billing arrangement, as set forth in 2.4.7 preceding, to be used by the Telephone Companies involved in providing the Access Service. The Telephone Company will notify the customer which of the ordering procedures will apply.

5.3.1 NON MEET POINT BILLING ORDERING - FGA

A. Single Company Billing Ordering

The Telephone Company receiving the order from the customer will arrange to provide the service and bill the customer as set forth in 2.4.8 A 1. The customer will place the order with the Telephone Company as follows:

For FGA Switched Access Service the customer will place the order with the Telephone Company in whose territory the first point of switching is located. The first point of switching is the dial tone office.

When the first point of switching is not in the same Telephone Company's territory as the Interexchange Carrier premises, the customer must supply a copy of the order to the Telephone Company in whose territory the Interexchange Carrier premises is located and any other Telephone Company(s) involved in providing the service. When service is provided through a centralized equal access provider, the customer must supply a copy of the order to that provider

[11] Effective June 15, 2025, CenturyLink will no longer provide adjusted rates for Shared Use arrangements. Shared Use, also called Ratcheting, occurs when Private Line/Business Data Services (BDS) and Switched Access are provided over the same DS1, DS3, or SST transport facility. Effective June 15, 2025, all Shared Use arrangements will be rated as Private Line, irrespective of the type of service carried on individual channels.
